Action Item 4.3

Topic:	**Cooperative Procurement Approval – Autonomous Vacuum Equipment**
College Health Metric:	**Campus Environment: College facilities and grounds are clean and updated. The campus is safe, secure, and welcoming**
Presented By:	**Dr. Jon Mandrell and Rich Groleau**

Presentation: The Facilities Department is seeking to improve the efficiency and effectiveness of campus custodial operations through the addition of autonomous cleaning technology. Routine vacuuming requires significant staff time, and the use of autonomous vacuums will allow custodial personnel to focus additional attention on detailed cleaning, sanitation, and other facility maintenance responsibilities while maintaining consistent cleanliness standards throughout campus.

Administration recommends the purchase of three Kärcher KIRA CV 50 autonomous vacuums to serve three designated areas of the College: the north side of the second floor, the south side of the second floor, and the third floor. Assigning one unit to each area will support consistent cleaning coverage and reduce the manual labor required for routine floor care.

The College intends to purchase the equipment from Imperial Brady for a total cost of $31,500 ($10,500 per unit), including the equipment and specified accessories. The purchase will utilize OMNIA Partners Contract No. 152610, a competitively solicited cooperative purchasing agreement. Cooperative purchasing is authorized under the Illinois Public Community College Act and Board Policy 305.01, allowing the College to leverage competitively solicited pricing without conducting a separate bid process.

Funding Source:

Restricted use Bond Proceeds

Recommendation:

The administration recommends the Board approve the purchase of three Kärcher KIRA CV 50 autonomous vacuums from Imperial Brady in an amount not to exceed $31,500, utilizing OMNIA Partners Contract No. 152610, to be funded through Restricted Use Bond Proceeds.
