## **BACCALAUREATE-ORIENTED CURRICULUM**

### **EDUCATION**

Students preparing for teaching, either on the elementary or secondary level, should follow the basic framework of the Liberal Arts curriculum.

The minimum requirement for a teaching certificate is a baccalaureate degree, and since the curricula for teaching vary widely at different institutions, students are cautioned to consult the bulletin of the school to make necessary substitutions.

In particular, students planning to attend Northern Illinois University should give careful attention to the general education requirements and special requirements for teaching.

## CAREER PROGRAMS IN BUSINESS

The college offers three business options intended to prepare the graduate for immediate employment in business or industry in the areas of accounting, management, or secretarial science.
