SAUK VALLEY COLLEGE BOARD OF TRUSTEES MEETING

Conference Room, Third Floor, 3L14

July 26, 1971

8:00 p. m.

- A. Call to order**
- B. Roll call**
- C. Communications from visitors**
- D. Recommended actions:**
 - 1. Approval of minutes as submitted**
 - 2. Approval of treasurer's report**
 - 3. Approval of current bills for payment**
 - 4. Approval of current payroll journal**
 - 5. Personnel action**
 - 6. Approval of degree requirements for Preveterinary Medicine transfers**
 - 7. Approval of parking lot and roadway repairs**
 - 8. Approval of College Calendar for 12-month period commencing September, 1971**
- E. Old business**
- F. New business:**
 - 1. Operation: CANGROE**
President's review of college operation and plan for continued growth
 - 2. Presentation of Tentative Budget for 1971-1972**
 - 3. Other items**
- G. President's reports:**
 - 1. Approval of Self Study by North Central Association**
 - 2. Approval of certificate program by Board of Higher Education**
 - 3. Action on State budget and other legislation**
 - 4. Admissions report**
 - 5. Other items**
- H. Time of next meeting**
- I. Adjournment**

MINUTES OF SAUK VALLEY COLLEGE BOARD OF TRUSTEES MEETING

July 26, 1971

The Board of Trustees of Sauk Valley College met in regular meeting at 8:00 p.m. on July 26, 1971 in the Board Room of Sauk Valley College, Rural Route #1, Dixon, Illinois.

Call to Order: Chairman Perkins called the meeting to order at 8:05 p.m. and the following members answered roll call:

Ronald Coplan	Orval DeWeerth
William Reigle	Kenneth Reuter
Clayton Schuneman	Thomas Walter
Catherine Perkins	

Approval of Minutes: It was moved and seconded that the minutes of the June 28, 1971 meeting be approved as presented. Motion voted and carried.

Treasurer's Report: It was moved and seconded that the Treasurer's Report be approved as presented. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter, and Perkins. Nays-0. Motion carried.

Bills Payable: It was moved and seconded that the Board approve the attached bills in the amount of:

Educational Fund	\$121,768.86
Building Fund	20,017.58
Site and Construction	393.28

The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter, and Perkins. Nays-0. Motion carried.

Payroll: It was moved and seconded that the payroll for June 30, 1971 be approved as presented in the amount of \$110,063.50. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter and Perkins. Nays-0. Motion carried.

Personnel Action: It was moved and seconded that the Board approve the appointment of Lois Eichman as Asst. Instructor of Nursing (Step 8) effective September 1, 1971. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter and Perkins. Nays-0. Motion carried.

- Preveterinary Medicine:** It was moved and seconded that the Board approve the degree requirements for Pre-veterinary Medicine transfers. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter, and Perkins. Nays-0. Motion carried.
- Parking Lot Repairs:** It was moved and seconded that the Board approve parking lot repairs by Thomas Construction Co. of Nachusa, Illinois in the amount of \$1,664. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter, and Perkins. Nays-0. Motion carried.
- School Calendar:** It was moved and seconded that the Board approve the attached revised School Calendar. Motion voted and carried.
- State of Illinois Right of Entry:** It was moved and seconded that the Board approve the attached resolution requesting the Illinois Building Authority to grant a right of entry to the State of Illinois for highway improvements. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter, and Perkins. Nays-0. Motion carried.
- Operation: CANGROE:** President Sabol presented to the Board a written review of the college operation and a plan for continued growth (a copy of which is included).
- Tentative Budget:** Discussion was held on the tentative budget for the 1971-72 school year. President Sabol noted that it included \$2,025,865 in Educational expenditures and \$1,721,358 in revenue. The Building Fund budget contains \$235,450 in expenditures and \$126,255 in revenue which has a net effect of producing a combined deficit of \$186,625 for the year. It was the consensus of the Board that a work session should be held on this budget on Monday, August 2, 1971 at 7:00 p.m.
- Building Usage:** It was moved and seconded that the Board approve the use of the Music Room on Wednesday evenings by the Sweet Adelines with the understanding that if the college should need this space this agreement will be cancelled. Motion voted and carried.

Building Usage:

It was moved and seconded that the Board approve the use of the Little Theater by the Christian Science churches of Sterling and Dixon for a joint lecture on April 13, 1972 if there are no school events scheduled for this date. Motion voted and carried.

Campus Life Crusade:

Mr. Reigle reported that the Campus Life Crusade which was held in the T-1 building recorded an attendance of over 7,000 people, and he said this organization had asked him to express their appreciation to the Board for the use of the college buildings.

Executive Session:

At 10:00 p.m. it was moved and seconded that the Board adjourn to executive session. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter and Perkins. Nays-0. Motion carried.

At 11:35 p.m. it was moved and seconded that the Board return to regular session. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter and Perkins. Nays-0. Motion carried.

Mrs. Perkins reported on the recruitment efforts of the college and also the possibility of a work shop with the SVC faculty sometime early in the fall. She noted that Loren Young was planning a meeting of all teachers in the county on Teacher's Retirement and suggested that this might possibly be a good time to get all the faculty members of the district together.

Adjournment:

Since there was no further business, it was moved and seconded that the Board adjourn. The following vote was recorded: Ayes Members Coplan, DeWeerth, Reigle, Reuter, Schuneman, Walter and Perkins. Nays-0. Motion carried.

The meeting adjourned at 11:40 p.m.

E. Orval DeWeerth, Secretary

(Revised and Approved by Board of Trustees 7/26/71)

RESOLUTION

WHEREAS, the Department of Public Works and Buildings, Division of Highways, State of Illinois, has completed plans for certain improvements along S.B.I. Route 6 in Lee County, Illinois, and a portion of said improvements are to be upon land, hereinafter described, which was conveyed by the Board of Junior College District No. 506, Counties of Whiteside, Lee, Ogle, Henry and Bureau, State of Illinois, to the Illinois Building Authority, a body corporate and politic of the State of Illinois, and

WHEREAS, the said Department of Public Works and Buildings requires a right of entry from the Illinois Building Authority for the purpose of performing necessary construction to improve, widen and resurface and to perform other work necessary to complete the improvements to be made, and further requires an agreement for a temporary road easement during the period of construction, and

WHEREAS, the Board of said Junior College District Number 506 feels that said improvements are in the best interests of the College, and is desirous of having said improvements made,

NOW, THEREFORE, Be It Resolved as follows:

The Illinois Building Authority is hereby requested to grant a right of entry to the State of Illinois, its contractors and agents, for the purpose of making improvements over the real estate described as follows:

A tract of land in the Southeast Quarter of Section Eight and in the Southwest Quarter of Section Nine, all in Township Twenty-one North, Range Eight East of the 4th P.M., bounded and described as follows, to-wit:

Commencing at the Northwest corner of said Southwest

Quarter of Section Nine; thence Southerly on the West line of said Section Nine, a distance of 140.37 feet to a point; thence Easterly in a straight line at an angle of $90^{\circ} 24'$ as measured clockwise from the last described course, a distance of 50 feet to a point; thence Southerly parallel with said West line of Section Nine, a distance of 1494.6 feet, more or less, to a point Easterly of and opposite Station 35+00 on the survey line for a public road designated TR 20, said point being the point of beginning of the hereinafter described tract; thence Northerly on the last described course, a distance of 1494.6 feet, more or less, to a point in the existing Southerly right of way line of a public highway designated FA Route 7 (SBI 6); thence Westerly in a straight line at an angle of $90^{\circ} 26'$ as measured clockwise from the last described course, a distance of 100 feet to a point in said existing southerly right of way line; thence Southerly, parallel with said West line of Section Nine, a distance of 633 feet; thence Westerly, parallel with said Southerly right of way line, a distance of 50 feet, more or less, to a point Westerly of and 100 feet perpendicularly distant from said survey line for TR 20; thence Southerly, parallel with said survey line, a distance of 261.6 feet, more or less, to a point opposite Station 29+00 on said survey line; thence Southeasterly in a straight line, a distance of 602.1 feet, more or less, to a point Westerly of and 50 feet perpendicularly distant from Station 35+00 on said survey line for TR 20; thence Easterly in a straight line to the point of beginning.

The above described tract of land is designated Tract C and contains 4.076 acres, more or less, of which 1.059 acres, more or less, have been previously set aside for public road purposes.

Said survey line is divided into stations 100 feet in length numbered in increasing numerical order toward the south and is fixed by references and data shown on the Plat of Survey recorded in Book 13 on Page 3 in the Recorder's Office of Lee County, Illinois,

and,

The Illinois Building Authority is further requested to grant unto the State of Illinois such easement as may be required for temporary road purposes during the period of construction, provided that the temporary road surface be removed upon completion of the

project and that the surface be smoothed out, graded, seeded and any damage to the drainage systems repaired.

This Resolution supersedes all former action of the Board of said College with reference to requested rights of way and tempora easements from the Illinois Building Authority.

PLAN FOR CONTINUED AND NATURAL GROWTH AND
REFINEMENT OF OPPORTUNITY FOR EDUCATION AT
SAUK VALLEY COLLEGE

Short Title: OPERATION CANGROE

"Sauk Valley College, with its open-door philosophy, is dedicated to the proposition that every human being can grow individually and also contribute effectively to his community. Through its occupational, transfer and adult programs, Sauk Valley College seeks to enrich the lives of individuals intellectually, aesthetically, emotionally, vocationally and socially.

"As a community college, Sauk Valley College is concerned with the educational needs of the community it serves. The College recognizes its responsibility for leadership and attempts to develop and maintain a collegiate program sufficiently flexible to adjust to changing conditions and demands.

"The College is committed to provide post high school educational opportunities for people of all ages commensurate with their ability and desire to achieve. Course instruction is supplemented with cultural programs and activities available both to students and the community at large as well as a strong program of counseling and guidance.

"The College further recognizes the relationship between an individual's full realization of his personal, social and occupational capabilities and the general community welfare. Sauk Valley College believes that education enhances the quality of the role the individual can play in the community. By providing a comprehensive educational service, the College increases the individual's capability not only to meet his own needs but also to better govern himself and to make those choices and/or preferences that lead to a better social, political and economic environment."

Since its inception, Sauk Valley College has embraced the mission of a comprehensive community college as expressed in the above-quoted statement of philosophy, a statement included in the self-study recently submitted to the North Central Association for accreditation purposes. Recognition of that mission has been made manifest in the following actions:

1. Provision by the Board of Trustees for initial facilities and operational funds to support the development of a program of "comprehensive educational services."
2. The Board of Trustees' early decision to develop a building plan designed to house and support that program.
3. Subsequent public approval of the Trustees' building plan by a 4-1 vote, thereby authorizing local bonding for 25% of construction costs.
4. Approval by the Illinois Junior College Board and other State and Federal agencies of the college's application for 75% of construction funds from those agencies.
5. Provision of almost a million dollars of additional funds for instructional equipment, books for the library, and other equipment and materials for the Learning Resource Center--these from State and Federal agencies and from the Sauk Valley College Foundation.

The President clearly recalls the Board's early charge that Sauk Valley College was to be "the best community college in Illinois" and that its program of occupational courses was to exceed the 15% minimum required for State financial aid and for designation as a Class I junior college. He is grateful for the Board's support of the staffing and organization plan which led to the development of that kind of college. Currently 186, or slightly more than half of the 369 courses approved by the Illinois Junior College Board are classified as occupational. The other half are baccalaureate-oriented courses, general studies, and continuing education.

Qualitatively speaking, former Sauk Valley College students who transfer to four-year colleges are reported as above average; their upper-division grades exceed those of other junior college transfers and are usually equal to those of transfers from four-year colleges. As a member of the Sauk Valley College faculty recently stated, "We take pride in our work; we also have enjoyed and hope to enjoy in the future the excitement of being part of a growing, vital institution which has become a reason for pride in those who have taken courses at Sauk Valley College. We watch our students compare favorably and excel when they transfer to senior institutions."

Favorable judgment of Sauk Valley College by others is reflected further by the following:

1. Ready employment of graduates of specialized occupational programs within the college district and elsewhere.
2. General acceptance of transfer credits by senior colleges both within Illinois and in many other states.
3. Recognition by member institutions of the American Association of Collegiate Registrars and Admissions Officers.
4. Continued approval by the Illinois Junior College Board
5. Stature of Sauk Valley College among junior colleges in Illinois and adjacent states.
6. Impending full accreditation by the North Central Association of Colleges and Secondary Schools

Numerically speaking, enrollment has grown each year. On "opening day" in 1966 it was 642; in 1970-71 it was just over 1,600, but more than 2,000 different persons were registered during that 12-month period. And the Office of the Registrar maintains permanent records for 6,799 individuals who have availed themselves of the formal educational opportunities provided by Sauk Valley College.

THE FINANCIAL PICTURE

When the college was established, a grant of \$100,000 was made by the Illinois Junior College Board. That was the maximum allowable under the Illinois Public Junior College Act. By July 1, 1970, the college had an operating fund balance of \$588,870. During the ensuing year, expenditures exceeded revenue by \$82,198 thereby reducing the amount available for carry-over on July 1, 1971 to \$506,672. The deficit for 1970-71 resulted from decisions made locally and from the effects of outside forces:

A. Local Factors:

1. Availability of facilities completely different in character from those previously used, thereby enhancing all aspects of the college's operations
2. A five-fold increase in space to be maintained in the new facilities occupied in June, 1970
3. Continued scheduling of a number of low-enrollment courses

B. Outside Factors:

1. Failure of the State to maintain financial support at the level indicated in the Master Plan for Higher Education in Illinois, i. e., one-half of average operating costs

2. Refusal by voters of the Sauk Valley College District to approve necessary increases in tax levies twice requested by the Board of Trustees in anticipation of the occupation of permanent facilities.

3. Rising costs and continued inflationary pressures

It should be noted here that tuition charges were raised in February 1971, the third time since the college opened its doors. Student charges are limited by law to 1/3 of the total cost of instruction and Sauk Valley College tuition is among the highest in Illinois community colleges.

Although deficit spending is common to public institutions, the challenge facing Sauk Valley College is that of curtailing future deficits while maintaining appropriate educational services for its constituency. Questions to be considered include the following:

1. Is the comprehensive mission of the college to be abandoned, maintained or modified?
2. Is growth to be funded in those areas where interest and enrollment warrant expansion?
3. Are any new programs to be considered, and if so, on what basis?
4. What will be the effect of the responses to these questions on the educational aspirations of the students served by Sauk Valley College?

Financial considerations force the review of such questions after only five years of operation, and in the case of most occupational programs, after only four years. If comprehensiveness and quality are to be maintained, there is no

choice but to re-assess and refine existing offerings and staff assignments and to continually study existing programs and new educational needs, regardless of what happens to operational revenue.

RECOMMENDATIONS

A. STAFF AND COURSES:

The following recommendations should result in more productive use of available resources and can be instigated immediately:

1. Increased productivity of existing staff
2. More effective scheduling of courses and students
3. Continued expansion of existing courses and related programs for which demand is evident by actual enrollment

4. Establishment of new programs on a "demonstrated need" basis

5. Immediate and continued involvement of every member of the staff, professional and non-professional, in student recruiting and in the public relations program of the college.

B. IMPLEMENTATION:

1. Staff Productivity - In 1969-70 an average of 537 student credit hours was taught by 61.7 full-time equivalent (FTE) staff, including division chairmen, counselors and other part-time instructors. There was little change in 1970-71. If that average had been increased to 600 student credit hours, additional revenue from tuition and state apportionment would have exceeded \$100,000 for the year.

Increased productivity goals should be set for each year as indicated below:

1971-72 - 600 average student credit hours per FTE instructor
 1972-73 - 630 average student credit hours per FTE instructor
 1973-74 - 660 average student credit hours per FTE instructor

In simpler terms, 600 student credit hours are produced by teaching five 3-credit sections with 20 students in each section for two semesters. An average increase of 30 student credit hours per instructor per year would be achieved by increasing the average size of each section by one student. At current rates of tuition and state reimbursement, such an increase would result in \$50,000 of additional revenue with existing staff. (Note: Care should be exercised not to apply this average to individuals; some will fit the pattern but many courses can be taught effectively in larger sections, whereas others may be restricted by laboratory or clinical limitations or by such factors as regulation by other agencies, i. e., x-ray and lab technology).

2. Scheduling - The purpose of the time schedule of classes is to make it possible for every student to enroll for a maximum number of courses as advised or required each semester. Improved scheduling should lead to greater achievement of that purpose. Work requirements and other special considerations characteristic of Sauk Valley College students are well known in the Office of the Registrar, and final authority for the time schedule of each section will rest with that office.

Low enrollment sections will continue to be eliminated before the close of registration if possible. Classes with less than 12 students* will not be taught in 1971-72 unless they constitute a part of the normal load of a full-time contractual staff member, or normally involve individual or small-group instruction in courses required in a program sequence.

* This will be raised to 15 in 1972-73.

3. Existing Courses and Programs - Existing courses and programs should be reviewed continually to determine if enrollment warrants retention. Such review shall normally be made after Fall Semester registration is complete but may also be advisable at other times of the year. If low enrollment persists in a course or groups of courses, elimination should be considered, especially if enrollment in those courses reduces the credit hour production of the division involved.

One of the dangers in this kind of situation is the temptation to assign staff to courses "outside" their fields. This must be kept to a minimum in view of the specialized preparation required of our staff, viz., a minimum of a master's degree in most fields and technical proficiency in others. Undue extension of "cross-over" assignments could jeopardize accreditation.

It is of even greater importance, both financially and educationally, that courses in heavy demand be offered and be taught by the best staff obtainable. In this respect, regular, full-time staff are most effective and are in demand by day, evening and summer students. In addition the college and its students may expect a different sense of devotion, both in time and effort from regular versus part-time staff.

4. New Programs - In the past, the scheduling of one or two new courses in a special field has led to the development of a complete program. Examples are: Law Enforcement and Child Care Aide. Similar possibilities should be considered on the basis of "demonstrated need", i. e., demand from the community and adequate advance interest in enrollment in a particular course or courses.

Facilities and/or staff already exist at Sauk Valley College for programs such as Ornamental Horticulture, Restaurant and Institutional Food Management, Home and Family Management, Consumer Education, Recreational Leadership, Natural Resources Management, and Dental Hygiene. Demand for new transfer programs is also likely to develop with the restrictions now placed on lower-division enrollment at public senior institutions in Illinois.

5. Recruitment - If this plan for continued growth and refinement of educational opportunity is to succeed, more students must be made aware of what Sauk Valley College has to offer. Our slogan in this effort should be "SVC Spells Opportunity". Every staff member should join in the recruitment effort, both by example and by direct approach to prospective individual students. The Office of Admissions stands ready to receive referrals from those too reticent to make a direct approach or who feel a lack of accurate information about programs and other factors. The President made one such referral this summer with the result that a student who had not intended to go to college this Fall is now considering Sauk, and he was an honor student in high school!

OTHER RECOMMENDATIONS

Although some curtailment has already been accomplished by the elimination of second-year courses in Data Processing and by redistribution of the duties of the position of Dean of Administrative Services, and by failure to fill previously authorized positions, other staff readjustments may be considered, but only with full regard for the implications of such readjustments for the quality of instruction and other educational services rendered to students. It is in that context that the following are presented:

A. Division Chairmen:

1. The current divisional organization could be broken down into smaller, units and the position of division chairman abandoned in favor of chairman. Each department chairman would then receive an additional pay factor and reduced load in consideration for administrative responsibilities.
2. A second possibility lies in the opposite direction, i. e. , reorganization in larger units of 15-20 faculty members, each unit to be supervised by an assistant dean. This would eliminate the division, but would still require some administrative assignment at the departmental level.
3. Another alternative is that the position of division chairman be changed to a 10-month appointment with salary determined by placement on the faculty salary schedule with an additional pay factor for administrative responsibilities. Teaching assignments would be required and would be pro-rated in accordance with the number of staff in the division. Summer teaching would be voluntary and compensated on the same basis as other regular faculty.

This can be recommended with the following qualifications:

1. That program and curricular development will diminish at this time
2. That contacts with senior institutions and employers will be maintained
3. That demands of the Illinois Junior College Board and other state agencies will remain about the same
4. That supervisory duties involving selection of staff, their evaluation and the improvement of instruction will continue to receive the same high priority as in the past, and
5. That all other normal duties can be completed in the 10-month contractual period.

THE SIGNIFICANCE OF SUPERVISION

Supervision is of great import in that it has assured the quality of instruction for which Sauk Valley College is widely known. Our program is diversified, complex and specialized in content, and continued expansion of knowledge dictates in-service growth for our faculty. Supervision assures that the teacher and his professional expertise will be used most effectively in behalf of the learner. Good supervision encourages the use of varied teaching methods, materials and procedures and provides suggestions for self-improvement. It may even lead to mutual development of new approaches to instruction.

Instruction in a community college is more than a series of lectures punctuated by an occasional 16mm film for variety. It is more than a series of outside assignments checked by an examination designed to produce a grade at required intervals. Good teaching encompasses lectures, discussions, demonstrations and student participation in the classroom--all supported by appropriate instructional materials and reference resources.

Out-of-class learning also has its place. It occurs in conferences with faculty, by training on-the-job, by internships, and by "proof-of-the-pudding" experience on the speaker's platform, in dramatic productions, or as a member of a newspaper staff or literary publication. There is more to it than exposing students to teacher in a classroom, and good supervision assures the more qualitative teaching performance to which the community college lays claim. It further encourages the kind of informal student-teacher relationship which keeps the focus of staff efforts on the student.

Recommendation: It is recommended that the question of organization for instruction be submitted to the North Central evaluation team for its review and suggestions. This would permit a further decision on this question by January 1972.

B. Student Services:

Educational services provided for students outside the formal course structure are as important as the instructional services provided in the classroom. They start with the raising of questions like these:

- What are my objectives? What do I want to achieve?
- What books, courses, experiences do I need? What can the college provide?
- What kinds of persons can be helpful?
- What is the best sequence of activities?
- How can I assess my progress?
- How can I finance my education?
- Can I combine work and study?

Members of the Student Services staff concentrate on the individual and his need to learn to make choices, adjustments and decisions with increased self-understanding and, in turn, greater self-realization and individual integrity. How important this is to the 40% of Sauk Valley College students who have no tradition of college attendance in their families; to those students who would not have attended college if Sauk were not here, to adults and to veterans?

It would be possible to reduce Student Services by placing all staff on 11-month contracts with the exception of the Dean and the Associate Dean. But counseling is a year-round demand as are admissions, testing, financial aids, activities and placement. In addition all Student Services staff, professionally trained in working with individuals and small groups, teach the orientation course, Psychology 100, required of all new day students and other degree candidates.

It is difficult to say what would suffer most if the staff were reduced or changed to 11-month contracts. Counseling demands could not be fully met and any increase in enrollment would compound the pressure and increase the counseling load. Nor can certain "less needful" students be "selected out" of the counseling process. Educational counselors cannot turn aside a student who comes seeking assistance and counsel on matters of concern to him.

Recommendation:

It is recommended at this time that this question be reviewed further and that the Student Services staff consider the possibility of 11-month contracts effective

July 1, 1972. This consideration is to include a priority listing of services to be offered in the event reduction proves essential.

C. Clerical and Maintenance Services:

The college has been able to develop a full-time clerical and maintenance staff whose overall performance is of the highest order. Their efforts have been aided by part-time student employees generally working at minimum rates and with 80% of their wages covered by the Federal work-study program. Any reduction in that program will result in an automatic reduction of their services and absorption of additional responsibility by full-time staff.

It should be noted here that the performance of these employees is a reflection of their devotion to and pride in the college. It is a matter of attitude and is a reflection of the quality of performance which characterizes the college in other respects. When the permanent building was first occupied, the Chairman of the Board of Trustees commented:

"Environment is a very important thing in our lives. We are inspired to greater achievements by surroundings that are attractive, impressive and efficient. Our new building will provide the inspiration."

The new building has enhanced the collegiate atmosphere and learning environment at Sauk Valley College and that environment must not be allowed to deteriorate.

Recommendation:

Studies have shown that deferred building maintenance is as expensive in the long run as regular maintenance and that protective and preventive maintenance is superior to repair after deterioration. Minor economies such as the restriction of lighted parking areas at night, turning off lights in unused spaces and careful use of supplies have and will continue to be effected, but there is the much larger problem of protecting the district's permanent investment in a large modern building with complex equipment and an extensive campus. This will require the constant effort of a capable work force, devoted to the preservation of the college's physical plant, rather than its periodic restoration.

THE ROLE OF THE TRUSTEES

In a public community college the Board of Trustees is the primary fund-raising agent and the college's representative to the public and to legislative bodies. It acts as a body in promoting the general welfare of the college, in the approval of policies for college operation and in the delegation of that operation to the professional staff. Another role of the Board of Trustees is to insure the effective use of available funds in the fulfillment of the purposes for which the college was established.

The key phrase here is "the fulfillment of the purposes for which the college was established." The key question is current financial capability. The administration can take steps which will effect economies and increase greater productivity, but additional revenues will be required to achieve continued full utilization of the facilities now available. In this respect the Board must accept a large share of responsibility in seeking the understanding and goodwill of the public, of legislative bodies and of others in a position to provide increased operating funds. Specific steps to be taken include the following:

1. Continued pressure on the General Assembly and the Governor to meet previously approved State aid commitments
2. Similar action to replace revenues lost by changes in the personal property tax and to secure a share of the State Income Tax
3. Support of any Federal programs designed to aid the comprehensive community college

Other possibilities for Board action are:

1. Another referendum seeking an increased local levy, especially for building operation
2. Increasing tuition (already high relative to other community colleges)
3. The establishment of a "working cash fund" constituting in effect the use of the full borrowing power legally authorized for the college

No single action will of itself do the job. In seeking the right "combination" the Board should be encouraged by the prophet Jeremiah's timeless promise:

"Refrain they voice from weeping, and thine eyes from tears; for thy work shall be rewarded, saith the Lord." (Jer. 31:16)

SUMMARY

In its brief history Sauk Valley College has served almost 7,000 persons seeking to better themselves through the chance for formal education provided by the college. It has satisfied its "customers", from those needing basic study skills to those seeking advanced technical courses, from the one-course registrant to the degree candidate, from the individual seeking career counsel to the person with other problems. It has met with the approval of the higher education community of the State, the area and the nation.

It has moved rapidly in the development of modern facilities to support its comprehensive program. The occupation of those facilities is in part responsible for increased costs of operation. Nor has the college escaped the effects of inflation, thereby reducing the adequacy of original student charges, tax levies and State aid to support its education plant and program. Nor has the State maintained its financial commitment at the level originally indicated when voters approved the formation of the college district. Now there is further erosion of the tax base by the removal of certain property from tax rolls.

These conditions must not be allowed to keep Sauk Valley College from its manifest destiny of helping students clarify their purposes and more effectively develop the additional competence and awareness they desire. Continued growth is possible and essential but the college must refine its operation. If comprehensiveness and quality are to be maintained, the following steps require action and/or consideration:

1. The elimination of courses in which enrollment has fallen below expectations
2. The expansion of courses in heavy demand
3. Establishment of new programs on the basis of demonstrated need
4. Increasing staff productivity (and thereby revenue) by more effective scheduling of faculty, courses and students
5. Continued recruitment of more students, both part-time and full-time
6. Possible reorganization of administrative staff and reduction in some educational services

Fortunately the college has a current fund balance of half a million dollars but projected costs and the tax losses previously mentioned will rapidly reduce that balance unless additional sources of revenue are provided. Every effort is being made to use current staff and plant capacity by increasing enrollment. The General Assembly must be convinced to override the Governor's veto of their provision for more State aid, and new Federal programs may be forthcoming.

Other sources of revenue may be secured by local action. The Board of Trustees has legal authority to borrow, to seek additional local tax revenue and to raise tuition, all within certain prescribed legal limits.

The community itself must realize the true scope of educational services provided by its college and the stake it has in the continuation of those services. It mandated the college, approved its building program and has indicated its approval of that program by its response to the educational services and activities of the college. Those services and activities are a real part of the "assets" of the college and are well worth preserving.

Sauk Valley College has a quality of institutional character unexcelled in Illinois: that must be held in the consciousness of all in whose interest the college was established, of those to whom the college belongs, and especially those still to be served in the future.
