Attn.: Mrs. Catherine Perkins
Chairman

20 September 1973

The Faculty Association herein files notice of its desire to appeal the decision on the enclosed grievance made at step two of the grievance procedure and requests a hearing with the Board of Trustees as provided in Article XVIII, C, of the contractual agreement.

The Association bases its appeal on the following contention:

The 1972-73 contractual agreement between the Board of Junior College District No. 506 and the Sauk Valley College Faculty Association does provide a procedure whereby the President of the College can change the status and/or revised placement of a staff member on the salary schedule.

REPRESENTATIVE

Persuant to and in accordance with Article 18 of Contractual Agreement between the Board of Junior College District No. 506 and the Sauk Valley College Faculty Association, Mohan K. Malhotra and the Faculty Association present the following Grievance:

And the Salary Schedule

N A T U R E O F D I S P U T E

On May 29, 1973, the grievant received an evaluation of his past academic and professional experience in the Memorandum from Dean Osborn to the grievant dated May 25, 1973 and signed by the grievant and Dean Osborn on May 29, 1973, and signed by Mr. George C. Cole, President of Sauk Valley

College, on May 30, 1973. Said evaluation was conducted at the request of the grievant. As a result of self evaluation as expressly stated therein, Sauk Valley College recognizes and accepted as the grievance record of past experience a total of (3) years teaching experience and a total of (14) years and (10) months professional experience, for a total of (17) years and (10) months teaching and professional experience.

Grievant and the Association contend that the aforesaid recognition and acceptance of said experience entitled grievant to a change of Status and/or revised placement to an Associate Professor with (17) years and (10) months of experience on the Salary Schedule, pursuant to and in accordance with the aforesaid provisions of the Contractual Agreement between the Board of Junior College District No. 506 and the Sauk Valley College Faculty Association, the pertinent provisions of the Faculty Handbook, and the pertinent provisions of the policies, procedures, guidelines, rules and regulations of Sauk Valley College.

R E M E D Y S O U G H T

The remedy sought by the grievant and the Association is the change of Status and/or revised placement of the grievant to Associate Professor with 17 years and 10 months of experience on the Salary Schedule.

Re: Holding Pond

During the past several months I have had a considerable number of conversations and meetings with representatives of Willet Hoffman and Associates in reference to our sewage holding pond. I have previously given each Board member some of the reasons and recommendations for the holding pond and have attempted to obtain additional specific data and estimates with reference to possible construction thereof.

I am enclosing herein the last letter from the latest conference and again it is impossible to detail adequately for the Board enough information to give a concise understanding of the project, and it appears that such will be the case until we actually authorize plans and specifications and obtain bid documents.

Though it is with some frustration, I am requesting Board approval to proceed with the construction of the holding pond with Willet Hoffman and Associates employed as the architects and using a figure of approximately \$50,000 for the total project. On this basis, the Board will be up-dated when plans and specifications are prepared and will thereafter be requested to take action on any specific contract award for construction.

Re: Waste Treatment Facilities
Improvements
Sauk Valley College

Dear Mr. Edison:

This is to confirm our July 30, 1973 conference on our Phase 1 - Report, dated June 11, 1973, covering proposed improvements to your waste treatment facilities.

Even though the main topic of our discussion was the Phase 1 - Report referenced above, we did discuss an alternate approach. The alternate approach consists of covering the existing extended aeration tanks for freeze protection, relocating the existing chlorine contact tank, constructing a surge tank following the final clarifier, installing dual microscreens in a garage inclosure, installing an aerated sludge holding tank, providing composite sampling equipment, etc. This alternate approach would provide the same treatment efficiency in a more compact site at approximately the same cost. With a minimal engineering effort, plans could be prepared for the alternate approach and bids could be requested for both the aerated lagoon and microscreen installations.

With regard to your question on a recommendation, we suggest that in view of increasing construction costs, the College Board set up a sewage treatment plant improvement account and allocate \$50,000 for the proposed project. On your direction, we will then complete the plans and specifications, secure the Illinois Environmental Protection Agency Construction Permit and prepare to receive bids, award contract and begin construction.

Very truly yours,

WILLETT, HOFMANN & ASSOCIATES, INC.
