RE: SITE AND CONSTRUCTION REPORT

I am enclosing herein a copy of the fiscal year 1976 Site and Construction Fund annual report which has been made to the Board of Trustees of Sauk Valley College since 1967. This report indicates the total activity which has taken place in this fund since its origin with the activity having been broken down by the source of funds being deposited within the fund as well as the expenditure classifications which will have expended this fund.

I think it goes without saying that the origin of the Site and Construction Fund was represented by the bond issue totaling \$3,975,000 for the construction and the equipping of the buildings for the Sauk Valley College community. At the time of this bond issue, it was indicated that these funds were felt to be sufficient for the construction and equipping of a facility valued at approximately \$16,000,000.

In as much as it appeared at the last Board meeting that some Board members possibly were not cognizant of the rental income having been deposited in this fund, as well as the investment of the fund, I would like to indicate the rationale which was approved by the Board of Trustees as to why the rental funds were deposited in the Site and Construction Fund.

- A) The source of the funds necessary for the T-1 building construction were wholly derived from the site funds, with reimbursement for this facility not having been requested from the Illinois Building Authority, since to have done so would not have permitted the total construction of the facility which we now occupy.
- B) The Building Fund has never been budgeted nor have funds been available for any type of major repairs on this building which might involve absolute essential and substantial costs. Our building is now six years old and some of the potential costs revolving around pumps and motors, etc., could readily be related to brickwork, boilers, deep well, chiller units for 1,200 tons of air conditioning, sewage plant, and a massive mechanical building facility within the structure.

Memorandum to: Board of Trustees
and President Cole

I have indicated on the report the total income which has been received from rented facilities as well as the status of the fund balance for the Site and Construction Fund from 1972 through the 1976 fiscal year. I have felt the income was deposited in this fund since the fund paid for the facility and I have felt that it has therefore been proper to charge major maintenance costs against this fund. In addition, I have no doubt that the Board of Trustees, by simple resolution, can funnel the rental income into either of the operating funds, and I would assume that they would also have the legal authority to transfer all rental income that has been received in this fund into the operating funds, should such be their desire.

Should there be any question relative to this report, I would be happy to respond as competently as possible.
