College Van: It was moved by Member Prescott and seconded by Member Fisher that the Board grant formal approval to let bids for the purchase of a college van according to the attached specifications with the understanding that the funds to purchase this van will be a combination

Van (cont.) of \$2,500 from the Sauk Valley College Foundation and the remainder of the money from the Student Activities fund. Motion voted and carried.

Grievance: The attached letter from Lawrence Weiner in regard to summer school pay rates was presented to the Board as an information item on this grievance.

Discussion: Member Prescottt asked if it would be possible to service all college vehicles in the automotive area as was suggested for the new college van. President Cole noted that the administration would explore this possibility and report back to the Board.

Discussion was also held on unemployment insurance and the Board asked Bob Castendyck to look into all the legal aspects of this item.

Equipment Policy: The attached proposed policy on equipment purchases was presented to the Board for their study and action at the next meeting.

Fire Training: Chairman Coplan asked the administration about the up-dating of the training at the Sterling Fire Department under the direction of George Logan, Jr.

President's Report: There was no student trustee report due to the illness of Barb Pasada. Dr. Cole reported on the letter of appreciation to the Dixon Telegraph for the donation of film strips, curriculum committee meeting minutes, faculty schedules for Fall, 1977, update on affirmative action, letter to the clerical and support staff on personnel classifications, a memorandum commending Carolina Pena for her efforts in working with students, a letter from the ICCTA, a letter to the ICCTA from Chairman Coplan (attached) and the community service, Fall, 1977, brochure.

President Cole also presented the Board with a news clipping describing problems Northern Illinois University was having with the Illinois State Scholarship Commission. Member Fisher asked about the practice of the Financial Aids Office at Sauk Valley College. Dr. Cole informed her that the college has allowed students who were qualified for financial aid and who signed a responsibility form, to defer their tuition

President's
Report (cont):

payment to Sauk Valley College until such time as they received their financial aid checks from Springfield.

RE: AGENDA ITEM #D-7 - APPROVAL OF PURCHASE OF BALER

The attached detailed memorandum from Dean Edison sketches the history of securing bids for the Portable Baler Machine along with the specifications and relative prices.

RECOMMENDATION:

The President recommends that the Board approve the purchase of a portable baler machine from the Paul Reilly Co., Inc. of Milwaukee, Wisconsin, in the amount of \$4,150.

TO: BOARD OF TRUSTEES AND PRESIDENT COLE

FROM: Robert Edison

Bob

In may of 1977, a Portable Baling Machine, with the following specifications, was advertised for bid.

Loading - Manual

Controls - Manual with safety features incorporated in loading door.

Loading chamber size (inches) W., L., D., - 30x40x20

Loading chamber volume (cu. ft.) - 14

Completed Bale size (inches) W., H., L., - 30x20x40

No. of ties per bale - 3 twine

Motor - 5 H.P. open drip-proof 208V AC, 3 phase,
60 hertz with NEMA type starter.

Stroke cycle (seconds) - 15 to 22

Dimensions, overall - approx. 13 ft. L x 2 ft. 10 in. W.
x 2 ft. 10 in. H.

The bids received on this machine, and one quotation subsequently obtained, are as follows:

Skarnes, Inc., Minneapolis, MN	Plus Frt.	\$ 3,365.00
Paul Reilly Co., Inc. Milwaukee, WI	Delivered	4,150.00
Maren Eng. Corp., S. Holland, IL	Plus Frt.	4,440.60

I have called the Paul Reilly Co., Inc., in Milwaukee, Wisconsin, and it has been indicated that they will still deliver this machine at the quoted price.

Some of the differences between the Skarnes machine and the Reilly Co. machine are as follows:

- 1) Hopper size. 14 cu. ft. versus 11½ cu. ft.
- 2) Chamber Opening. 30"x40" versus 23"x 36".
- 3) Horizontal loading versus vertical loading. It is felt that horizontal loading would be easier with the full size opening available for filling, whereas the vertical loading would depend upon the height for the individual worker. It is also felt that much more debris would fall on the floor with the vertical loader.
- 4) Three ties per bale versus 2 ties per bale.
- 5) Reilly Co. will handle wet products versus dry products only. Though I don't contemplate strictly wet products we do have a good deal of wetness involved in cafeteria areas where drinks, etc. are served.
- 6) Cycle time. 18 seconds versus 15 seconds.

RECOMMENDATION: Board approval for the purchase of a portable baler machine from the Paul Reilly Co., Inc. of Milwaukee, WI, in the amount of \$4,150.00.

RE: AGENDA ITEM #F-1 - PROPOSED POLICY ON EQUIPMENT PURCHASES

Pursuant to discussions at our last Board Meeting, the following tentative recommendations are offered for discussion and eventual approval by the Board regarding equipment purchases in future budget years.

By law we are not required to approve our final budget until the end of September. From a practical point-of-view, however, we start operating from the new budget on July 1 of the year in which it is approved. Certain items, such as personnel and occasionally supplies, are purchased before the final approval of the budget and many of these commitments are necessary to start the new academic year and to keep the college operating for that period of time from July 1 until the budget is formally approved.

In the opinion of the administration, the following arrangement would be more functional and hopefully could minimize Board concerns over equipment in future budget years.

Step 1:

Following preliminary budget discussions which will probably begin in late December or early January for the following fiscal year, a total dollar amount which can be committed to equipment purchases should be decided on by approximately March 15, hopefully no later than April 15.

Step 2:

Following the consensus of the Board on the maximum amount of money available for equipment purchases for the following fiscal year, the administration will identify the desired equipment along with cost estimates and establish a priority list which does not exceed the anticipated amount of money available for equipment purchases. This list should be prepared by May 1, hopefully no later than June 1.

Memorandum to: SVC Board of Trustees
September 21, 1977
Page #2

Step 3:

Following the preparation of this priority list, the Board will be given the opportunity of final review before commitments are made to purchase the necessary equipment. Hopefully the priority list can be given a final vote of approval by June 15, certainly no later than July 1.

Step 4:

Following the final review by the Board of the equipment priority list, the administration should feel free to proceed in the most expeditious manner to purchase this equipment and have it delivered to the college before the beginning of the fall semester.

If the above procedure is approved, it will probably be necessary to review and perhaps revise our current purchase policy which does not include these carefully spelled-out steps. For your information I have included a copy of the purchasing policy which was approved in the spring of 1972, several months before I arrived at Sauk as President.

PURCHASING POLICY

Introduction

The administration of the purchasing policies and guidelines as set forth herein shall be the responsibility of the Dean of Business Services. This document shall serve to enable responsible parties to act in the best interests of Sauk Valley College. An efficient, well-planned, and organized program of purchasing policies is imperative to protect the public trust relative to the expenditures of public tax monies. Because the success of the purchasing program depends on the ways and means of implementation, management, and administration, it is apparent that this written policy shall govern the purchasing program and its use.

Ethics

All administrators acting as purchasing agents for Sauk Valley College shall ever be mindful of and practice the following ethics:

1. To regard public service as a sacred trust giving primary consideration to the interest of the school district.
2. To purchase without prejudice, seeking to obtain the maximum benefit for each tax dollar expended.
3. To strive for knowledge of school equipment and supplies in order to recommend items that may either reduce cost or increase the efficiency of the means of education.
4. To insist on and expect honesty in sale representation whether offered verbally or in the sample of a product submitted.
5. To give all responsible bidders equal consideration and the assurance of unbiased judgment in determining whether their product meets specifications and the educational needs of the district.
6. To discourage the offer of, and to decline, gifts which in any way might influence the purchase of school equipment and supplies.

7. To accord a prompt and courteous reception, insofar as conditions permit, to all who call on legitimate business missions.
8. To cooperate with educational, governmental, and trade associations in the promotion and development of sound business methods in the procurement of school equipment and supplies.

Procedures

The Dean of Business Services shall have the responsibility of securing for the district its requirements for services, materials, supplies, and equipment at the lowest possible cost consistent with satisfactory standards for quality and service.

Supervision and control of all purchases shall be the responsibility of the Dean of Business Services, or his responsible officer, and he shall not be burdened with interference from any person at or below his administrative level.

Supply items common to all departments and which are generally used throughout the college shall be purchased by the Dean of Business Services. Such items shall be of good quality and shall be purchased in sufficient and adequate quantities so as to assure the lowest possible cost. These supply items shall be located in a central storage room and controlled by dispensing through the Business Office. The departmental budgets will be charged by journal entry for the value of the merchandise received.

All purchases are to be initiated by requisition and shall be approved by the requisitioner's immediate supervisor and/or dean, or as required by the Dean of Business Services.

Policies

A. Budgeted Expenditures

All expenditures for items of services, materials, supplies and equipment which have been budgeted within the operational funds of the College shall be bid and purchased within the following guidelines and policies:

1. Purchases involving an expenditure of less than \$2,500 may be authorized by the Dean of Business Services without advertising for bids, or requiring formal competitive bidding. The Dean of Business Services shall determine the type of bidding necessary, the procedure being dependent upon the circumstances pertaining to each particular purchase.

2. Purchases involving an expenditure in excess of \$2,500 shall be let to the lowest responsible bidder after due advertisement, except contracts which by their nature are not adaptable to competitive bidding such as contracts for:
 - a. services for individuals possessing a high degree of professional skill where the ability or fitness of the individual plays an important part.
 - b. printing of finance committee reports and departmental reports.
 - c. printing or engraving of bonds, tax warrants and other evidences of indebtedness.
 - d. utility services such as water, light, heat, telephone or telegraph.
 - e. materials and work which have been awarded to the lowest responsible bidder after due advertisement, but due to unforeseen revisions, not the fault of the contractor for materials and work, must be revised causing expenditures not in excess of 10% of the contract price.
 - f. the purchase of supplies, materials, and equipment for which written specifications cannot feasibly be formulated due to the nature of the product to be purchased, e.g. boiler chemicals, floor sealers, brand name typewriters, etc.
 - g. purchases of magazines, books, periodicals, pamphlets and reports.
 - h. where funds are expended in an emergency and such emergency expenditure is approved by 70% of the members of the Board.
3. All competitive bids for contracts involving an expenditure in excess of \$2,500 should be sealed by the bidder and must be opened by a member or employee of the board, and witnessed, at a public bid opening at which the contents of the bids must be announced. Each bidder must receive at least three days notice of the time and place of such bid opening.

4. Due advertisement includes, but is not limited to, at least one public notice at least ten days before the bid date in a newspaper published in the district, or if no newspaper is published in the district, in a newspaper of general circulation in the area of the district.
5. All requests for quotations or competitive bids shall be issued through the office of the Dean of Business Services.

B. Non-Budgeted Expenditures

Purchases of services, materials, supplies, and equipment which have not been specifically budgeted for in the operational funds of the College, or which ultimately shall be funded through the Site and Construction Fund, shall be purchased according to the policies and guidelines as set forth in Section A, with the exception that responsibility for approval to purchase under this Section B, rests with the Board of Trustees.

Miscellaneous

The Dean of Business Services will exercise discretion in determining the responsibility of each bidder. The lowest responsible bidder will be awarded the contract, provided he meets the specific requirements set forth in the bidding document.

Preference will be given to persons or firms located in the college district so long as they provide the needed service on a substantially equal basis with the persons or firms located outside the district.

RESOLVED, That the purchasing policy of COMMUNITY COLLEGE DISTRICT NUMBER 506, Counties of Whiteside, Lee, Ogle, Henry, Bureau and Carroll, State of Illinois, commonly known as SAUK VALLEY COLLEGE, be amended by adding to the Miscellaneous Section the following language: All contracts to which Sauk Valley College is a party shall be conditioned upon the requirement that the supplier of materials or services or the contractor and his subcontractors, and all labor organizations furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or services, as the case may be, shall not commit an unfair employment practice in this State as defined in Section 853 of Chap. 48, Ill. Rev. Stats., and all such contracts shall have incorporated therein the "Equal Employment Opportunity Clause" required under the Rules and Regulations of the Illinois Fair Employment Practices Commission, a copy of which is attached hereto and incorporated herein by reference. The said Clause may be incorporated in the College's contracts by reference to this purchasing policy.

"EQUAL EMPLOYMENT OPPORTUNITY CLAUSE"

In the event of the contractor's noncompliance with any provision of this Equal Employment Opportunity Clause, the Illinois Fair Employment Practices Act or the Fair Employment Practices Commission's Rules and Regulations for Public Contracts, the contractor may be declared nonresponsible and therefore ineligible for future contracts or sub-contracts with the State of Illinois or any of its political subdivisions or municipal corporations, and the contract may be cancelled or avoided in whole or in part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.

During the performance of this contract, the contractor agrees as follows:

(1) That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin or ancestry; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.

(2) That, if it hires additional employees in order to perform this contract, or any portion hereof, it will determine the availability (in accordance with the Commission's Rules and Regulations for Public Contracts) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.

(3) That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, national origin or ancestry.

(4) That it will send to each labor organization or representative of workers with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the contractor's obligations under the Illinois Fair Employment Practices Act and the Commission's Rules and Regulations for Public Contracts. If any such labor organization or representative fails or refuses to cooperate with the contractor in its efforts to comply with such Act and Rules and Regulations, the contractor will promptly so notify the Illinois Fair Employment Practices Commission and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations thereunder.

(5) That it will submit reports as required by the Illinois Fair Employment Practices Commission's Rules and Regulations for Public Contracts, furnish all relevant information as may from time to time be requested by the Commission or the contracting agency, and in all respects comply with the Illinois Fair Employment Practices Act and the Commission's Rules and Regulations for Public Contracts.

(6) That it will permit access to all relevant books, records, accounts and work sites by personnel of the contracting agency and the Illinois Fair Employment Practices Commission for purposes of investigation to ascertain

compliance with the Illinois Fair Employment Practices Act and the Commission's Rules and Regulations for Public Contracts.

(7) That it will include verbatim or by reference the provisions of paragraphs 1 through 7 of this clause in every performance subcontract as defined in Section 2.10(b) of the Commission's Rules and Regulations for Public Contracts so that such provisions will be binding upon every such subcontractor; and that it will also so include the provisions of paragraphs 1, 5, 6 and 7 in every supply subcontract as defined in Section 2.10(a) of the Commission's Rules and Regulations for Public Contracts so that such provisions will be binding upon every such subcontractor. In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by all its subcontractors; and further it will promptly notify the contracting agency and the Illinois Fair Employment Practices Commission in the event any subcontractor fails or refuses to comply therewith. In addition, no contractor will utilize any subcontractor declared by the Commission to be nonresponsible and therefore ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations."

With respect to the two types of subcontracts referred to under paragraph 7 of the Equal Employment Opportunity Clause above, following is an excerpt of Section 2 of the FEPC's Rules and Regulations for Public Contracts:

"Section 2.10. The term "Subcontract" means any agreement, arrangement or understanding, written or otherwise, between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee):

(a) for the furnishing of supplies or services or for the use of real or personal property, including lease arrangements, which, in whole or in part, is utilized in the performance of any one or more contracts;
or

(b) under which any portion of the contractor's obligation under any one or more contracts is performed, undertaken or assumed."

MEMORANDUM

Don Foster, Affirmative Action Officer

Update on AA Policy and EEOC Guidelines

Part of my responsibilities as AAO is to keep the SVC administrative staff apprised of current EEOC rules and regulations in regard to Affirmative Action. This memo should be regarded as part of my effort to fulfill this responsibility.

Enclosed are copies of articles that I recently acquired at an EEOC seminar in Washington D.C. that spell out our obligations under Affirmative Action. The article by William B. Lockett entitled "EEO: A Normal Business Activity" provides a general overview of Affirmative Action. The article entitled "Material to be Provided for the Desk Audit" is copied from the EEO Manual and the article entitled "Record Keeping, Reporting and Notice Posting Requirements Under EEO Statutes and Regulations" is written by Gary E. Murg of the Burroughs Corporation. Please read these articles carefully in order to be aware of our obligations in this area.

Of primary concern to our institution is the possibility of someday facing an EEOC audit. If this should take place, we need to be sure that all of our personnel records, hiring practices, and personnel policies in general are in compliance with EEOC regulations. This is something that must be done on a continuing basis--and not left to the few days prior to an audit.

The following list of information represents a summary of some of the major areas of concern that relate to our institution.

1. It is necessary to maintain complete and accurate records on our "application flow" here at the college. All applications should be kept on file for the past several years. The EEOC will examine these records carefully in the event of an audit and use them as a basis of evidence of our compliance or noncompliance with AA.
2. In order to avoid a charge of discrimination in hiring practices we are obligated to make sure that our recruiting efforts provide a reasonable opportunity for all minorities (the seven protected categories) to become aware of vacancies and to apply.

3. In order for an individual to have valid grounds for filing a complaint of discrimination in hiring the following conditions must exist:
 - The person must have made formal application for the position.
 - The person must have been denied employment.
 - The position must have remained open after they were rejected.
 - The position must have been advertised after the person was rejected.
 - The person must file a formal complaint with the EEOC within 180 days after the date of rejection.
4. Of special concern to the EEOC, in an audit situation, is evidence of "systematic discrimination" in an institution. This is defined as discrimination in work rules, hiring practices, or personnel policies that systematically exclude or penalize individuals of one of the seven protected categories. These categories are:
 - Race
 - Religion
 - Color
 - National Origin
 - Sex
 - Age
 - Handicapped
5. In charges of unfair employment practices two terms are of importance.
 - Requisite skills-which refer to individuals that possess the necessary skills to perform the job in question in a satisfactory manner. This is your real recruiting population that percentages and quotas are based upon--not just the population at large. In other words, we do not have to employ an unqualified person just to meet a quota. However, there must be a demonstrated relationship between the qualifications listed and the actual duties to be performed. Artificial degree requirements and inflated qualifications are of concern to the EEOC in an audit.
 - Reasonable recruiting area - which refers to the geographic area from which we recruit new employees. For professional staff this would be the entire country while for classified personnel it would be the immediate SVC area. Our quotas are established by the EEOC based upon our individual institutional reasonable recruiting area.

Memorandum to: Dr. Cole and all Deans
September 22, 1977
Page 3

6. Employment application forms must be carefully screened to exclude all nonrelevant information that could result in discrimination. Question requesting information on age, sex, race, religion, state of health, marital status etc. should be removed from the pre-employment application forms. However, once a person is hired then he or she can be asked to fill out a post-employment form seeking the type of personal data listed above. The Affirmative Action Committee plans to examine all of our employment application forms this year and recommend the needed changes to bring us into full compliance.

If you have any questions in regard to the information presented in this memo, please contact me. Part of the conference fee covered the cost of a four volume complete set of EEOC guidelines, rules, and regulations in regard to Affirmative Action. Feel free to consult them if the need arises. Also, I will be happy to assist you in obtaining information about AA.

Dear Mr. Coplan:

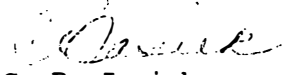

It is our understanding that on July 21 the Sauk Valley Board of Trustees voted to discontinue their membership in the Illinois Community College Trustees Association, with the understanding that the matter would be reconsidered at a later date. Although we are disappointed with your decision we are encouraged that you will be continuing to study the role of the ICCTA and your position within our organization.

During the months ahead we will continue to send our materials to all Sauk Valley board members and to Dr. Cole. We also encourage all of the board members to attend the Northwest ICCTA regional meetings, our monthly board meetings, and our workshops so you will have an opportunity to observe the work of the Association first hand and to interact with trustees throughout the state.

Several trustees and our executive director would like to visit informally with each of the Sauk Valley board members during October. This will provide an opportunity for us to explain the role of the ICCTA and the positive things which have been accomplished because of the trustee organization. These informal meetings will also give the Sauk Valley board members a chance to express their concerns about the ICCTA. We hope these meetings will prove beneficial for all concerned.

The community college trustees who are active in the work of the ICCTA believe strongly in its viability and need. We trust that as you continue to study your position with our organization, you too will agree that 100% participation is essential and worthwhile.

Sincerely,

C. R. Jasiek

Re: ICCTA - Sauk Valley College

Dear Sir:

I have yours of September 19, 1977. You are correct in your assumption that the Sauk Valley College Board of Trustees does not wish to continue its membership in the Illinois Community College Trustees Association. Your understanding that the matter will be reconsidered at a later date is not entirely correct, since any review of the Board's decision will have to be based on some change in the position by the ICCTA, particularly as it relates to financing.

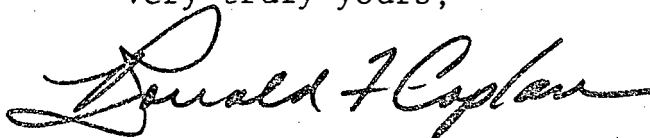

The basic objection to continued membership is the cost to the institution. Sauk Valley College, like many other community colleges, finds itself in an increasingly difficult position financially. Our most recent fiscal year was concluded with a deficit and our present fiscal year has a considerable deficit budgeted. Our enrollment has declined and it appears as though it will continue to decline in the foreseeable future. While the decline in student enrollment may be negligible as it is viewed from numbers of students or the percentage decline in student credit hours, the financial impact is much greater. The Board can hardly justify spending several thousands of dollars to the ICCTA when we can ill afford salary increases for personnel.

I assume that it is possible that some, or all, of our trustees and our president would meet with your executive director and members of your board if you wish. However, your offer to explain the role of the ICCTA in the positive things which have been accomplished because of that organization fail to recognize that we do keep abreast of things that are happening and that

Mr. C. R. Jasiek,

the role of the ICCTA is understood by those of us at the local level. What you fail to recognize at your level is our concern about the increasing cost of operating the ICCTA and also the relative priority of your organization in our financial planning.

Very truly yours,

As you probably already know, we recently established a committee to work on a personnel classification system for the clerical and support staff at Sauk Valley College.

There are several reasons why we initiated this activity at this time. The primary impetus came from our recent Affirmative Action Plan. To preserve the spirit of this plan which is required of us by federal law, it is only fair that everyone know his or her job classification as well as what salary and responsibilities are normally associated with that job. This classification system will be made public information.

I would like to reassure each of you that there are no intentions of reducing anyone's pay and request your cooperation in working with your supervisor to carefully identify your job responsibilities so that we might develop an accurate and up-to-date description for every job at Sauk Valley College.

The findings of this committee will of course be taken into consideration when future decisions about salary increases are acted upon by the Board. It is also necessary to have a job classification system which will permit us to fairly and accurately place new employees at a salary that is based upon their qualifications to perform their duties.

Sincerely,

George E. Cole
President

State student grants delayed

#12-8

By SHAREN JOHNSON

Gannett News Service

SPRINGFIELD — At least 1,200 scholarship students may face financial difficulties and some may have to drop out of school this semester because of a computer backlog in the agency that processes state scholarship applications, college and state officials said Monday.

In addition, Rockford-area college officials said, an unknown number of prospective freshmen found college doors slammed in their faces this fall because they received no confirmation, or learned too late, that their scholarship applications had been approved.

"It's a mess," said Gloria Lind, secretary to Rep. E. J. "Zeke" Giorgi, D-Rockford. Giorgi's office helps those students who request aid in processing scholarship application forms, she said. "I know of at least four kids who won't be in school this fall because they didn't get their scholarships in time."

A computer backlog in the office of the Illinois State Scholarship Commission, which awards about 100,000 grants to state schools per year, was cited by both Rockford-area college officials and a spokesman for the commission as the reason behind the delay.

"And a big part of the problem is students who applied late, in August, and who didn't fill out their application correctly," said a spokesman in the office of James Eames, administrative director of scholarships for the state commission. "But it's getting better now. We're almost current."

However, from 1,200 to 1,300 students at Northern Illinois University, DeKalb, who received the state scholarships last spring still are waiting to learn if their scholarships have been renewed, said Claude C. Kacsmarek, NIU director of student financial aids. "We know of some who applied in July and still haven't heard anything," he said.

When classes started in late August, NIU waived tuition payments for all those who had received state scholarships last spring, "to keep the wolves off their backs" until their renewals were confirmed, Kacsmarek said.

But the waivers expire Thursday.

"We have a number of anxious students," he said. "We've advised them if they aren't notified by Thursday, they can make self-payment — pay tuition

and fees costs out of their own pockets — or their class registrations will be canceled."

At Rock Valley College, however, students without confirmation or unable to obtain tuition money elsewhere were unable to register at all this semester, said Richard Dresser, student financial aids director.

"We tried to make every other effort to find them help," he said. "But our administration felt we did not have the funds to carry a lot of students."

"We are not in a position to carry them on hope," he said.

A student must enroll for at least six credit hours per semester to qualify for a state scholarship, which may cover up to full tuition costs plus and some fees. Of the 4,000 RVC students who take six or more credit hours per semester, Dresser said, about 600 receive state scholarships.

Dresser said he could not estimate the number of students who did not register this semester because they could not learn whether they would get state aid. "Since we're not a four-year institution, and many wouldn't return anyway, we're not geared to keep those records," he said. "But we think we have a lot of students who haven't gotten it a state scholarship."

The grants could be worth at least \$512 per year at RVC, for a student taking 16 credit hours per semester, Dresser said. Tuition at NIU is \$500 per year, Kacsmarek said.

Those who applied for state scholarships at Rockford College, a private four-year school, have been allowed to enroll, said Deborah Fleeman, assistant director of student financial aid. The college has been able to keep its own records and determine which students should qualify, she said. "We've credited their account," Fleeman added. Fleeman said about 240 of the college's 600 students receive Illinois state scholarships. Most of those receive the maximum \$1,550 award, she said.

Joseph Boyd, the scholarship commission's executive director, confirmed in April that developing a new computer program had helped begin the massive backlog, forcing the commission to postpone initial scholarship announcements at least five weeks.

National data has been built into the system for the first time, and college officials will be able to use this information to better determine a family's ability to pay for a college education, he said.

Boyd said the scholarship commission also was given a lower priority status for use of the state's central computer in Springfield. Even when work was ready to be processed, he said, the commission had to wait its turn for computer time. The delay was lengthened by the spring legislative session, Boyd said. The approximately 3,000 bills introduced this spring, and all he additions and deletions, are processed through the same computer.

15,000 students seeking grants still in backlog

By SHAREN JOHNSON

Gannett News Service

SPRINGFIELD — About 15,000 college students who applied for Illinois state scholarships this spring and summer still have not been notified whether they will receive the financial awards, an Illinois State Scholarship Commission (ISSC) official said on Tuesday.

In the meantime, said a financial aids official at Northern Illinois University, DeKalb, plans will be made next week to help those NIU students stay in school who have not yet learned whether their scholarship applications will be honored.

No scholarship students' classes will be canceled until at least Sept. 29, although technically their temporary tuition waivers expire on Thursday, said NIU Bursar Richard Cochran.

James Eanes, administrative director of the ISSC Scholarship and Grant Division, said about 133,000 applications for the state scholarships covering tuition and some fees have been processed and the applicants notified.

"That leaves, at a very rough estimate, about 15,000," he said. "But we're in much better shape now than I would have believed possible in April."

Eanes said a combination of factors, including switching to a new computer program, delays in getting computer time, an improved auditing system to weed out those who do not qualify, and late applications by students all contributed to a massive backlog which has almost buried the state scholarship agency since April.

Eanes said the commission now is processing applications filed in August, and that overtime work has been ordered to complete processing on incomplete applications or those which were culled for an audit.

Students who file scholarship applications now should learn within 60 days whether they will receive the monetary grants, he said.

In the meantime, state scholarship applicants attending NIU apparently will have to hope the commission clears their records before the university rescinds the temporary fee waivers granted when classes began in late August.

From 1,200 to 1,300 students who received state scholarships last year but had not received renewal notices this fall were granted the fee waivers, Claude Kaczmarek, NIU director of student financial aids, said on Monday.

Cochran said Tuesday that although the waivers expire this week, students will be given until the 29th to get their scholarships confirmed before the university considers canceling their registrations.

"That date of the 22nd was just to give them an additional week to find out if they've got a scholarship," he said. "Nothing's going to happen to them until then."

Representatives from the bursar's and student financial aids offices will meet next week to compare the most current list of scholarship recipients from the ISSC with the list of waivers, to determine those students still in arrears, Cochran said.
