Agenda Item D-7

Aviation Consortium Approval

Eighteen Illinois community colleges and the University of Illinois Institute of Aviation have formed a consortium that would extend aviation class opportunities to our students. While we have no clear indication of any local student interest, this certainly seems like an opportunity that we should make available to our students.

RECOMMENDATION: Board approval to join the Aviation Consortium comprised of Illinois community colleges and the University of Illinois Institute of Aviation.

Goal #4: Provide career programs focused labor market and training needs.

Goal #5: Tailor and customize instructional programs to meet area manpower needs through credit and non-credit courses, workshops and seminars.

Goal #11: Extend the programs and services of the College to all segments of the district by expanding offerings and creating flexible delivery systems.

Dear John:

I would like to formally invite you to join the Aviation Consortium comprised of eighteen central Illinois Community Colleges and the University of Illinois Institute of Aviation. Enclosed please find a copy of the agreement between the member schools and Lincoln Land. I would like to highlight some of the points made by Jim Hashbarger, the recruitment representative, during his recent visit to your campus.

1. Students would take their general education courses at their "home" community college.
2. Instruction in the technical courses would take place at the University of Illinois Institute of Aviation in Savoy.
 - A. Advantages
 1. Students would have access to regulated housing.
 2. Some students choose to "go away to school".
 3. A feeling of prestige for students/parents to go to Champaign to the U of I.
 - B. Disadvantages
 1. Students would need to move away from their home area for two years.
 2. Colleges would receive no tuition or apportionment dollars for the technical courses.

Enclosed is a personalized agreement for your board approval and signature. I hope you will be able to attend and if you should have any questions or concerns please do hesitate to call me at (217) 786-2406.

Sincerely,

David A. Green, Chair

Title III Approval

As the Board is aware, we are about to submit a Title III Grant proposal. This proposal requires Board of Trustees approval. I have attached an abstract of the proposed grant as well as the agreements for the consideration of the Board of Trustees:

RECOMMENDATION: Board of Trustees approval to complete the necessary agreements and submit a new Title III Grant proposal.

Goal #58: Seek external resources and alternative sources of funding outside normal revenue sources to implement the College's goals and objectives.

General Goal Area: Instruction

To cultivate excellence by keeping the curriculum contemporary in terms of content, format, methods, technology, and equipment which reflect changing states of the art.

ABSTRACT

Sauk Valley Community College, a comprehensive community college located in northwestern rural Illinois, enrolls approximately 4,000 credit students each semester. The major problems inhibiting the institution to accomplish its mission and to obtain its goals are: 1) Poor Retention; 2) Deteriorating Curriculum Quality; 3) Declining Enrollment; and, 4) Fiscal Instability. Faculty and staff have identified two major activities to help alleviate these problems and achieve the goals of the College's long-range plan.

ACTIVITY 1: STRENGTHENING OF ACADEMIC PROGRAMS and ACQUISITION OF EQUIPMENT

Sauk Valley Community College will upgrade curriculum and transform teaching and learning in five areas by integrating current technologies and competencies. The areas are: Biology, Clinical Lab Science, Manufacturing Technology, Mathematics, and Radiologic Technology. The improvements will be accomplished by: 1) external and internal evaluation of course competencies; 2) purchase of equipment and software; and, 3) development and integration of new curriculum modules.

The outcomes of the activity will be increased enrollment, retention, competitive completers upon transfer to four-year institutions or in the marketplace, and increased student satisfaction with the education received.

ACTIVITY 2: FACULTY DEVELOPMENT CENTER

Sauk Valley Community College will upgrade the effectiveness of its faculty and bring them into the mainstream of higher education through the incorporation of pedagogical advances utilizing instructional technology. This effort will include: 1) computer literacy workshops and demonstrations of instructional technology applications for use in classrooms and labs; 2) computer-generated graphics; 3) computer-aided instruction (CAI); 4) video technology including distance learning; and, 5) multi-media presentations.

The outcomes of the activity will enable faculty to: 1) become more effective in their roles as instructors assisting students to learn; 2) improved retention rates; and, 3) giving faculty the opportunity to keep abreast of changes in technology in their fields of expertise.

Tuition Waiver Requests - Illinois State Scholars

Assistant Whiteside County Regional Superintendent of Schools Dean Metz has suggested that their office and Sauk Valley co-sponsor a banquet on May 24 honoring Whiteside County students who have been designated as Illinois State Scholars. The speaker would be a successful Sauk Valley graduate so this would be a good opportunity for these accomplished students to consider the merits of a community college. The cost of the banquet is relatively modest and we have agreed to co-sponsor.

Mr. Metz further suggested that one of the "awards" be a 3 credit tuition waiver for these Illinois State Scholars to attend Sauk Valley. Since this banquet will only be for Whiteside County Illinois State Scholars, we would prefer to extend this offer to all Illinois State Scholars in the Sauk Valley Community College district. The total number of Illinois State Scholars this year should be approximately 107 and we estimate that a maximum of 75% would likely use this waiver. Many of these students will already have a full tuition waiver because of their outstanding academic achievements in high school and/or will be going elsewhere to school but might use the waiver for summer enrollment at Sauk. (It is important to remember that we do get state funding in excess of the \$123 tuition and fees for any students who use this tuition waiver.)

In short, these Illinois State Scholars are outstanding students who should be honored and rewarded and recruited to Sauk Valley - we think this tuition waiver might accomplish these goals.

RECOMMENDATION: Board approval to grant a 3 credit tuition waiver for all Illinois State Scholars in the Sauk Valley District for this year's graduating class only, with the stipulation that this tuition waiver must be used by the end of the summer session of 1996.

Goal #49: Identify the most viable target markets for the College, and develop systematic and specific strategies to reach them.

SUBJECT: Recommendation for Stephanie Schreiner

I recommend that Stephanie Schreiner be appointed as Instructor of Nursing Education. The following information supports the recommendation.

Qualifications:

Academic Background

Ms. Schreiner earned a B.S. in Nursing from Pittsburg State University, Pittsburg, Kansas, and a M.S. in Nursing from Northern Illinois University.

Professional Background

Ms. Schreiner has nine years experience as a registered nurse in a variety of settings. This experience provides a valuable background for instruction in the Nursing Program. In addition, Ms. Schreiner has certification in Advanced Cardiac Life Support, Mobile Intensive Care Nursing and as a Trauma Nurse Specialist. The skills and experiences related to these certifications will add another dimension of expertise to the nursing faculty. Mrs. Schreiner has been a clinical substitute and adjunct faculty member for the Health Career Education area during the past year. During this time, she taught HEA 193 - Technical Nursing, lecture and lab. She was also a clinical instructor during one Medical/Surgical rotation for the Practical Nursing program.

References

Ms. Schreiner is highly recommended by all of her references. Her current supervisor notes that she is very organized, requires very little supervision and learns very quickly. She indicated that Stephanie has supervised EMT students in the Emergency Room and that she relates very well with them, but also expects competent performance from them. Furthermore, references indicated that she exhibits exceptional ability to get along with her peers and subordinates. They also identified one of her strengths as her teaching ability.

Stephanie received a very good evaluation from my classroom observation and students in HEA 193 - Technical Nursing. In addition, we have received very good reports from students in the Practical Nursing program, as well as staff, who have observed her instructional activities with them this semester.

The Search Committee strongly supports this recommendation. Stephanie's professional and personal qualities will be an asset to the Nursing program and Sauk Valley.

Search Process

The positions for nursing faculty were advertised in the Sterling Daily Gazette and the Dixon Telegraph. The position announcement was sent to eight schools of nursing in the Chicago and suburban area and was distributed internally. Eight applications were received.

Members of the Search Committee included Rosemary Johnson, Director of Health Career Education; Dick Holtam, Counselor, Assistant Professor; Ralph Pifer, Associate Professor of Psychology and Social Science; Mary Willett, Assistant Professor of Nursing; Janet Lynch, Instructor of Nursing; Chris Gehlbach, Assistant Professor of Nursing; and Jeanine Tufty, Assistant Professor of Nursing.

The Search Committee reviewed all the applications and selected two candidates for reference checks and interview. The candidates were interviewed on March 30, 1995. Ms. Schreiner received very good ratings from the Search Committee on her interview performance.

In addition to the Search Committee, the candidates met with the Vice President of Instructional Services and the President.

SUBJECT: Recommendation for Pamela Cunningham

I recommend that Pamela Cunningham be appointed as Assistant Professor of Nursing Education. The following information supports the recommendation.

Qualifications:

Academic Background

Ms. Cunningham earned a B.S. in Nursing and a M.S. with a specialty in Maternal Child Health Nursing from Northern Illinois University.

Professional Background

Ms. Cunningham comes to us with experience as a registered nurse in a variety of settings. Most relevant is her experience as an educator, which includes four years as assistant professor at Sauk Valley Community College and three years at Rockford Memorial School of Nursing. In her current position, she has gained teaching experience with all age groups, including grade school students and adults. Ms. Cunningham is certified in Inpatient Obstetrical Nursing.

References

Ms. Cunningham comes to us with excellent recommendations from her current supervisor, the Administrative Director - Maternal/Child Health at Rockford Memorial Hospital. She indicated Ms. Cunningham is dependable, reliable and a team player. She also stated that Pam is an excellent teacher, self motivated and requires very little supervision to complete assignments. One of Ms. Cunningham's co-workers noted that she has excellent interpersonal skills, is a very hard worker and very organized. Her references also indicated that they hated to see Pam leave and would not hesitate to rehire her. My own experiences as a co-worker at Sauk Valley were extremely positive. The Search Committee strongly supports this recommendation. Pam's experience and personal strengths will enhance the quality of instruction in the Nursing program and Sauk Valley Community College.

Senator Todd Sieben
State House M121
Springfield IL 62706

Dear Todd:

Legislation is coming before the Illinois Senate that will dramatically affect the relationship of community colleges with the rest of higher education in Illinois. Senate Bill 549 (Fawell) calls for the Illinois Community College Board to be removed from the authorities of the Illinois Board of Higher Education. All of the authority affecting community colleges which is currently vested in IBHE would then be transferred to the ICCB. The community college system would then stand as an additional and separate educational system-- separate from the rest of higher education and separate from the common schools.

As chairman of the Sauk Valley Community College Board of Trustees, I have been directed by a unanimous decision of this Board to inform you that Sauk Valley Community College is OPPOSED to this legislation. We can find no constructive benefits to be derived benefitting either the community college system or the system of higher education by passing this bill into law. We think this bill is the wrong way to approach higher education.

We urge you to oppose SB 549 which we believe will be a demonstration of support for the community colleges in Illinois.

Thank you for consideration in this matter.

Sincerely,

B.J. Wolf, Chair
