# Board Policy Review

## Board Policies:

Board Policy 405.01  
Appointment and Non-  
Appointment of Instructional  
Personnel

Board Policy 405.02 Oral  
English Proficiency

Board Policy 406.01 Tenure  
Definition

#### 405.01 Appointment and Non-Appointment of Instructional Personnel

Normally, instructional personnel shall initially be appointed for no longer than one year. Such appointments must be reviewed annually.

Eligibility for tenure for instructional faculty is based upon completion of three years of full-time professional service and satisfactory performance evaluations at Sauk Valley Community College.

#### Notice of Non-reappointment

For instructional faculty not on tenure, if the employee is not to be re-employed at the end of the employee's contract, the employee shall be given written notice no later than March 1 of the contract year.

#### 405.02 Oral English Proficiency Policy

The Sauk Valley Community College Board of Trustees recognizes that the ability to communicate effectively is an essential skill necessary for faculty. Therefore, all final candidates for teaching positions will have effective English proficiency.

Sauk Valley Community College will favorably consider reasonable requests for Faculty Development fund resources to pay for such special assistance as may be necessary to improve the spoken English competency to an acceptable proficiency.

**October 28, 2013**

**Action Item 5.1**

**Topic:**                   **2013 Audited Financial Statements**

**Presented By:**       **Dr. George Mihel and Melissa Dye**

**Presentation:**

Robert A. Wright, CPA and Linda A. Dolezalek, CPA from McGladrey & Pullen, LLP will be present to review the 2013 audited financial statements and answer any questions from the Board of Trustees.

**Recommendation:**

The administration recommends the Board accept the 2013 audited financial statements as presented.

**Action Item 5.2**

**Topic:**                    **Bid Award – Nursing – Alaris Pump system**

**Presented by:**        **Dr. George Mihel, Alan Pfeifer, and Janet Lynch**

**Presentation:**

We would like to replace two of our Alaris pump systems used in our nursing programs. These pumps were contained on our replacement list for FY14. One of our current pumps is inoperative and the other is having issues.

The College purchases pumps that mirror the pumps being used by our local hospitals. These Alaris pumps mirror the pumps being used at CGH Medical Center. Our program also trains students on pumps utilized at KSB that do not need replacing this year.

CareFusion is the manufacturer of the Alaris pump and is the same company that CGH Medical Center uses for their purchases.

The following bids were received:

| Company    | Address                                   | Amount   |
|------------|-------------------------------------------|----------|
| CareFusion | 3750 Torrey View Dr., San Diego, CA 92131 | \$14,170 |

**Recommendation:**

The administration recommends the Board approve the purchase of two Alaris Pump systems from CareFusion in the amount of \$14,170 to be paid from funding bonds.

**Action Item 5.3**

**Topic:**                    **Bid Award – Fire Science Turnout Gear Purchase**

**Presented by:**        **Dr. George Mihel, Alan Pfeifer, and Janet Lynch**

**Presentation:**

Last year the College purchased turnout gear for the students in the Fire Science program. Turnout gear consists of protective jackets and trousers which provide protection to the upper and lower body (excluding head, hands, feet) against adverse environmental effects during structural firefighting. This clothing has a mandated usable life of ten years. Currently, the instructors in this program use gear provided by their own fire departments, therefore, we are in need of turnout gear for our instructors.

The College advertised in the *Dixon Telegraph* and the *Sterling Daily Gazette*. In addition, bids were requested from DZ Rescue, Witmer Public Safety Group, Continental Fire and Safety, and the Illinois Fire Store. One bid was received. Funding bonds will be used for this purchase.

| Company             | Address   | Amount   |
|---------------------|-----------|----------|
| Illinois Fire Store | Amboy, IL | \$18,000 |

**Recommendation:**

The administration recommends the Board approve the purchase of ten Globe/Carins sets of turnout jackets and pants from the Illinois Fire Store in the amount of \$18,000 to be paid from funding bonds.

Action Item 5.4

**Topic:** 2014 Protection, Health, and Safety Projects

**Presented By:** Dr. George Mihel and Frank Murphy

**Presentation:**

The following four projects have been identified for funding through the Protection, Health and Safety Tax Levy.

1. **Gymnasium Improvements** - This project proposes to clean loose asbestos from the existing lighting fixtures and the top of the gypsum panels suspended from the ceiling of the gymnasium. Upon cleaning, the existing lighting fixtures will be replaced with higher efficiency lighting system and an encapsulation structure will be constructed between the concrete beams to cover the existing gypsum panels to isolate the asbestos containing material and protect it from exposure.  
Projected budget: \$400,000.
2. **Waste Water Treatment Plan Improvements** - This project will modify the existing lift station and includes converting the existing wet well/dry well lift station to a submersible or vacuum prime style lift station. In addition, a new pump control panel and level sensors will be installed to bring the lift station above grade.  
Projected budget: \$202,500.
3. **2014 Window Improvements Project** - This project continues work on exterior windows of the College. This project will replace existing metal framing and un-insulated glazing with insulated glazing and metal panels as well as repair the deteriorating conditions at the base of the windows.  
Projected budget: \$147,500.
4. **2014 Mall Lighting Retrofit** - This project provides for the installation of new high efficiency LED lighting in the mall areas to be controlled by contactors instead of circuit breakers and operated with Daylight Harvesting sensors. In addition, the recessed lights that illuminate the walkways will be re-lamped with 12 watt LED bulbs and controlled by Daylight Harvesting sensors.  
Projected budget: \$50,000

The 2013 Protection, Health and Safety Fund levy, payable in 2014, should yield approximately \$800,000 as the maximum allowable tax rate. The College has levied at or near the maximum five cents for this fund for a number of years. The total cost to complete these projects is \$800,000.

**Recommendation:**

The administration recommends the Board approve the attached resolutions, budgets and certification statements regarding these projects for submission to ICCB for action.

Date October 18, 2013

**Application Type (check the appropriate application type and follow instructions):**

- ☐ Site acquisition-- see ICCB administrative rule 1501.604 d) or g) for additional material requirements and check here \_\_\_\_\_. (If this is a site acquisition and only land is being acquired ---no building--- then check here \_\_\_\_\_) --complete/submit Sections I and II with additional material requirements (if acquisition includes remodeling or new construction then you should also check the other appropriate application type and include description in the narrative portion of the application)
- ☐ Locally Funded New Construction--complete/submit Sections I and II.
- ☐ Locally Funded Remodeling--complete/submit Sections I and III.
- ☐ Locally Funded New Construction and Remodeling--complete/submit Sections I, II, and III.
- ☒ Protection, Health and Safety (PHS)--complete/submit Section I and Attachment PHS.
- ☐ Capital Renewal Project--complete/submit Section I and the three forms in the Architect Forms section of this manual. (Note: two of these should be completed by the architect.)

**Section I (submit for ALL project approval requests)**

- A. Board of trustees action--attach a copy of the local board's resolution and certified minutes
- B. A detailed description of the project's programmatic justification (*complete the narration section and attach*)
- C. A detailed description identifying the scope of work to be accomplished (*complete the narration section and attach*)
- D. Board of trustees approved budget (*use the appropriate format on Attachment #1--top half of form for any project except PHS and bottom half of form for PHS projects only*)
- E. Funding source (*use the appropriate format on Attachment #2*)

- F. Locally funded project budget and certification form (Attachment #3) OR Attachment PHS.

## **Section II**

- A. Is the requested project included in the District Site and Construction Master Plan? (See ICCB Rule 1501.602c for a definition of such a plan) Yes \_\_\_\_\_ No \_\_\_\_\_

If no, please update your District's Site and Construction Master Plan and submit to the ICCB. Anticipated date of completion \_\_\_\_\_

- B. Submit the new square footage allocation (*use Square Footage Summary Attachment*)  
(*If land acquisition only then not necessary to complete this form*)

- C. Has the site been determined professionally to be suitable for construction purposes?  
Yes \_\_\_\_\_ No \_\_\_\_\_

If yes, how was suitability determined (i.e., soil borings, inspection for hazardous materials, etc.) \_\_\_\_\_

## **Section III**

- A. Submit the new square footage or the remodeled square footage allocation (*use Square Footage Summary Attachment*)

### **Programmatic Justification**

Provide an explanation of the programmatic impact of the proposed project.

The ceiling of the gymnasium consists of gypsum panels suspended from the roof deck between concrete beams. The bottom side of the roof deck is coated with an acoustic spray applied insulation that contains asbestos. The existing gypsum panels are spaced approximately 1 foot from the edge of the concrete beams all around the gymnasium. Frequently volleyballs are inadvertently hit through the gap between the existing gypsum panels and concrete beam and bounce around in the space between the gypsum panels and roof deck potentially exposing the ACM to damage. Existing light fixtures are suspended through the gypsum panels. This project proposes to clean loose asbestos from the top of the existing gypsum panels and light fixtures, remove and replace existing light fixtures with a higher efficiency lighting system and construct an encapsulation structure between the existing gypsum panels and the existing concrete beams to isolate the ACM and protect it from exposure to damage.

### **Scope of Work**

Provide an explanation of the specific work to be performed as part of this project.

This proposed project will encapsulate existing asbestos containing material (ACM) and upgrade the existing lighting system in the Gymnasium. Existing loose ACM will be cleaned and existing light fixtures removed. An encapsulation structure will be constructed and new light fixtures installed.

**Application Type (check the appropriate application type and follow instructions):**

- ☐ Site acquisition-- see ICCB administrative rule 1501.604 d) or g) for additional material requirements and check here \_\_\_\_\_. (If this is a site acquisition and only land is being acquired ---no building--- then check here \_\_\_\_\_) --complete/submit Sections I and II with additional material requirements (if acquisition includes remodeling or new construction then you should also check the other appropriate application type and include description in the narrative portion of the application)
- ☐ Locally Funded New Construction--complete/submit Sections I and II.
- ☐ Locally Funded Remodeling--complete/submit Sections I and III.
- ☐ Locally Funded New Construction and Remodeling--complete/submit Sections I, II, and III.
- ☒ Protection, Health and Safety (PHS)--complete/submit Section I and Attachment PHS.
- ☐ Capital Renewal Project--complete/submit Section I and the three forms in the Architect Forms section of this manual. (Note: two of these should be completed by the architect.)

**Section I (submit for ALL project approval requests)**

- A. Board of trustees action--attach a copy of the local board's resolution and certified minutes
- B. A detailed description of the project's programmatic justification (*complete the narration section and attach*)
- C. A detailed description identifying the scope of work to be accomplished (*complete the narration section and attach*)
- D. Board of trustees approved budget (*use the appropriate format on Attachment #1--top half of form for any project except PHS and bottom half of form for PHS projects only*)
- E. Funding source (*use the appropriate format on Attachment #2*)

- F. Locally funded project budget and certification form (Attachment #3) OR Attachment PHS.

## **Section II**

- A. Is the requested project included in the District Site and Construction Master Plan? (See ICCB Rule 1501.602c for a definition of such a plan) Yes \_\_\_\_\_ No \_\_\_\_\_

If no, please update your District's Site and Construction Master Plan and submit to the ICCB. Anticipated date of completion \_\_\_\_\_

- B. Submit the new square footage allocation (*use Square Footage Summary Attachment*)  
(*If land acquisition only then not necessary to complete this form*)

- C. Has the site been determined professionally to be suitable for construction purposes?  
Yes \_\_\_\_\_ No \_\_\_\_\_

If yes, how was suitability determined (i.e., soil borings, inspection for hazardous materials, etc.) \_\_\_\_\_

## **Section III**

- A. Submit the new square footage or the remodeled square footage allocation (*use Square Footage Summary Attachment*)

## Programmatic Justification

Provide an explanation of the programmatic impact of the proposed project.

*The existing lift station was constructed in 1966 along with the original construction of the existing waste water treatment plant. The existing lift station pumps and pump control panel are currently located within an existing below grade structure which is classified as a confined space. SVCC personnel must enter this below grade structure to perform daily checks of the lift station and to perform maintenance on the existing pumps. Entering a confined space is a hazardous condition without providing proper ventilation and performing checks on gas levels while within the confined space. This project will modify the existing lift station and includes converting the existing wet well / dry well lift station to a submersible or vacuum prime style lift station. The submersible or vacuum prime pumps will be installed in the existing lift station well structure and will include a new pump control panel and level sensors. Due to the new pump system to be installed and the new location of the control panels the new lift station will not be considered a confined space and will be safer for the SVCC personnel because access to the pumps and pump control panel will be above grade.*

## Scope of Work

Provide an explanation of the specific work to be performed as part of this project.

The scope of work for this proposed project includes the following:

1. Cleaning the existing wet well and install a new barrel section to get the top of the structure above grade.
2. Plug existing dry pit pump suction lines in wet well.
3. Install two (2) new pumps on the wet well structure including all piping and valving.
4. Install a new pump control panel and level sensor to control the start/stop of the pumps.
5. Install a new flow meter and meter vault for measuring influent flow rate and totalized flow.
6. Install piping to connect new lift station to existing WWTP influent piping.
7. Remove and replace existing security fence to facilitate new lift station construction.
8. Remove existing pumps, piping, control panel, lighting, HVAC, etc from the existing dry pit lift station structure.
9. Cut off access tube below grade and backfill dry pit structure with granular material.
10. Site restoration.

 Project Budget \$ 147,500 ( ) check / here if the proposed project is to be financed with a combination of local, state, federal, foundation gifts, etc and disclose on funding attachment 2  
 Date October 18, 2013

**Application Type (check the appropriate application type and follow instructions):**

- ☐ Site acquisition-- see ICCB administrative rule 1501.604 d) or g) for additional material requirements and check here \_\_\_\_\_. (If this is a site acquisition and only land is being acquired ---no building--- then check here \_\_\_\_\_) --complete/submit Sections I and II with additional material requirements (if acquisition includes remodeling or new construction then you should also check the other appropriate application type and include description in the narrative portion of the application).
- ☐ Locally Funded New Construction--complete/submit Sections I and II.
- ☐ Locally Funded Remodeling--complete/submit Sections I and III.
- ☐ Locally Funded New Construction and Remodeling--complete/submit Sections I, II, and III.
- ☒ Protection, Health and Safety (PHS)--complete/submit Section I and Attachment PHS.
- ☐ Capital Renewal Project--complete/submit Section I and the three forms in the Architect Forms section of this manual. (Note: two of these should be completed by the architect.)

**Section I (submit for ALL project approval requests)**

- A. Board of trustees action--attach a copy of the local board's resolution and certified minutes
- B. A detailed description of the project's programmatic justification (*complete the narration section and attach*)
- C. A detailed description identifying the scope of work to be accomplished (*complete the narration section and attach*)
- D. Board of trustees approved budget (*use the appropriate format on Attachment #1--top half of form for any project except PHS and bottom half of form for PHS projects only*)
- E. Funding source (*use the appropriate format on Attachment #2*)

- F. Locally funded project budget and certification form (Attachment #3) OR Attachment PHS.

## **Section II**

- A. Is the requested project included in the District Site and Construction Master Plan? (See ICCB Rule 1501.602c for a definition of such a plan) Yes \_\_\_\_\_ No \_\_\_\_\_

If no, please update your District's Site and Construction Master Plan and submit to the ICCB. Anticipated date of completion \_\_\_\_\_

- B. Submit the new square footage allocation (*use Square Footage Summary Attachment*)  
(*If land acquisition only then not necessary to complete this form*)

- C. Has the site been determined professionally to be suitable for construction purposes?  
Yes \_\_\_\_\_ No \_\_\_\_\_

If yes, how was suitability determined (i.e., soil borings, inspection for hazardous materials, etc.) \_\_\_\_\_

## **Section III**

- A. Submit the new square footage or the remodeled square footage allocation (*use Square Footage Summary Attachment*)

### Programmatic Justification

Provide an explanation of the programmatic impact of the proposed project.

*The present window system consists of metal framing and single pane un-insulated glazing. This window system constitutes the majority of the exterior wall system of the entire College. This proposed project will replace the existing metal framing and un-insulated glazing and with new metal framing and a combination of insulated glazing and insulated metal panels providing nearly three times greater resistance to heat flow through the glazing than the existing glazing and framing. In addition the existing condition at the window base is a cast in place concrete curb that is in various degrees of deterioration throughout the College and at some locations the deterioration is severe. Deterioration to the point of failure of this curb could possibly result in frame movement, cracks in glazing or loss of glazing. This proposed project will also repair the existing conditions at the base of the windows. This project will improve the overall quality of the interior environment and help to protect and preserve the condition of the existing interior building elements.*

## Scope of Work

Provide an explanation of the specific work to be performed as part of this project.

*This proposed project will remove existing metal framing and un-insulated glazing and replace with new metal framing and a combination of insulated glazing and insulated metal panels. This proposed project will also repair the deteriorating existing conditions (concrete curb) at the base of the windows. The existing framing system was a custom system and the new framing system is standardized and of different dimension which will also result in the need for the existing window treatment to be replaced.*

## **Programmatic Justification**

Provide an explanation of the programmatic impact of the proposed project.

The current lighting in the Mall Areas that run the entire length of the building is inadequate and consumes a great deal more energy than proposed lighting. It is made up of 26 - 250 watt HPS fixtures that are suspended by pendants at a low height and surrounded by enclosures that focus the light straight down instead of spreading the light out. As a result the second and third floor walkways are not adequately lit. There are several areas that are very dark during evening classes and night shift cleaning hours. These lights are currently turned on and off by circuit breakers and are lit all day long. This project will dramatically increase the illumination in the corridor walkways, cut the energy consumption by an estimated 50%, with a projected payback within five years. It will also eliminate the hazard of turning lights on and off with circuit breakers.

### **Scope of Work**

Provide an explanation of the specific work to be performed as part of this project.

The scope of work on this project will include installing new high efficiency LED lighting in the Mall areas that are controlled by contactors instead of circuit breakers, and operated with Daylight Harvesting sensors. The recessed lights that illuminate walkways will be re-lamped with 12 watt LED bulbs and controlled by Daylight Harvesting sensors in the areas near the exterior windows.

ENERGY PAYBACK CALCULATION

Current Energy Cost = \$0.10 (not adjusted for future increases)

Current Light Fixtures:

|                       |                    |
|-----------------------|--------------------|
| 26 Fixtures at 460W = | 11,960 W           |
| 17 Fixtures at 292W = | 4,964W             |
| 340 Fixtures at 65W = | <u>22,100 W</u>    |
| TOTAL                 | 39,024W = 39.024kW |

Current Usage:

|                                              |                       |
|----------------------------------------------|-----------------------|
| 16 hours/day * 5 days/week * 52 weeks/year = | 4,160 hours/year      |
| 8 hours/day * 2 days/week * 52 weeks/year =  | <u>832 hours/year</u> |
|                                              | 4,992 hours/year      |

Current Energy Cost:

$$39.024\text{kW} * 4,992 \text{ hours/year} * \$0.10/\text{kWh} = \$19,481/\text{year}$$

Proposed Light Fixtures:

|                       |                    |
|-----------------------|--------------------|
| 26 Fixtures at 254W = | 6,604 W            |
| 17 Fixtures at 0W =   | 0W                 |
| 340 Fixtures at 12W = | <u>4,080 W</u>     |
| TOTAL                 | 10,684W = 10.684kW |

Proposed Usage:

|                                              |                       |
|----------------------------------------------|-----------------------|
| 16 hours/day * 5 days/week * 52 weeks/year = | 4,160 hours/year      |
| 8 hours/day * 2 days/week * 52 weeks/year =  | <u>832 hours/year</u> |
|                                              | 4,992 hours/year      |

Proposed Energy Cost:

$$10.684\text{kW} * 4,992 \text{ hours/year} * \$0.10/\text{kWh} = \$5,334/\text{year}$$

Other Items:

1. Daylight harvesting controls will be incorporated into the project which is estimated for purposes of this calculation to reduce usage by 20%.
2. The project is eligible for \$7,500 in rebates.

Sauk Valley Community College  
2014 Lighting Improvements Project

ENERGY PAYBACK CALCULATION

PAYBACK CALCULATIONS:

Budgeted Project Construction Cost = \$44,000

PAYBACK CALCULATION #1 (not considering daylight harvesting or rebates)

Energy Cost Savings = \$19,481 - \$5,334 = \$14,147/year

Payback Period = \$44,000 / \$14,147/year = 3.11 years

PAYBACK CALCULATION #2 (including estimated daylight harvesting not considering rebates)

Reduced Usage = 80% current usage =  $0.8 * 4,992 \text{ hours/year} = 3,994 \text{ hours/year}$

Reduced Energy Cost =  $10.684\text{kW} * 3,994 \text{ hours/year} * \$0.10/\text{kWh} = \$4,267/\text{year}$

Energy Cost Savings = \$19,481 - \$4,267 = \$15,214/year

Payback Period = \$44,000 / \$15,214/year = 2.89 years

PAYBACK CALCULATION #3 (including daylight harvesting and rebates)

Construction Cost = Budgeted Cost - Rebates = \$44,000 - \$7,500 = \$36,500

Energy Cost Savings = \$19,481 - \$4,267 = \$15,214/year

Payback Period = \$36,500 / \$15,214/year = 2.40 years

CALCULATION NOTES:

1. Current Light Fixtures, Current Usage and Current Energy Cost provided by College.
2. Estimated Daylight Harvesting Control savings shall be verified based on actual savings.
3. Potential Rebated information provided by College shall be verified.

**RESOLUTION TO APPROVE  
PROTECTION, HEALTH AND SAFETY PROJECTS**

**WHEREAS**, pursuant to the provisions of the statutes of the State of Illinois, Community College District No. 506 is authorized to complete necessary projects dealing with health or safety of students, employees or visitors; and,

**Action Item 5.5**

**Topic:** 50<sup>th</sup> Anniversary Dillon Video

**Presented by:** Dr. George Mihel, Steve Nunez, and Rachel Kobus

**Presentation:**

The College's community outreach and marketing departments began initial research on the use of a professional video production company to shoot and develop a 15-20 minute documentary on the founding and construction of SVCC. The film will feature founding Board of Trustee Member Peter W. Dillon. The documentary is one that will be used during the 50<sup>th</sup> anniversary, recruitment visits, orientations, community presentations and also archived as a future resource.

After meeting with three separate production companies, receiving proposals and reviewing each company's past video production work, the decision was made to form a partnership with Comtech, Inc. out of Loves Park, Illinois based on the following estimates and summarized proposals:

|                                                     | Production Cost |                                                                                                                                                              |
|-----------------------------------------------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Seven Eleven Production (Rockford)                  | \$15,000        | One man company with longer time needed to produce video. Included graphic editing, video shoot and raw footage as property of SVCC. Video moderate quality. |
| Comtech Multimedia Marketing Group Inc (Loves Park) | \$14,750        | Highest quality of video production. Use of multi-person video/editing team. 42 hours of video, 83 hours of editing.                                         |
| AVP (Dixon)                                         | \$6,000-\$8,000 | Vague proposal submitted with little feedback from initial meeting. Although proposed short filming/editing, lowest quality of video.                        |

**Recommendation:**

The administration recommends the Board approve the SVCC 50<sup>th</sup> Anniversary Video to be produced by Comtech Multimedia Marketing Group Inc, in the amount of \$14,750.
