April 21, 2025**

Action Item 6.7

Topic: Faculty Retirement – Radiologic Technology

Mission: Sauk Valley Community College is dedicated to teaching and scholarship while engaging the community in lifelong learning, public service, and economic development.

Presented By: Drs. David Hellmich and Jon Mandrell

Presentation:

Professor of Radiologic Technology, Dianna Brevitt, has submitted her intent to retire effective July 31, 2026. Dianna has been instrumental in providing high-level radiologic technology instruction. She has helped provide guidance in determining the program objectives and student outcomes. The success rate of the students enrolled in Radiologic Technology completely confirms her commitment to the program and the students to ensure that they succeed.

Dianna continues to be a tremendous asset to our Radiology Department and the College. She consistently has a positive attitude and transfers her energy into growth for her classroom, the department, and the College. She is very cognizant of the need for continuing education and assures that for herself while creating opportunities for students and area practitioners to meet this need.

Dianna is one of our most effective and respected faculty at SVCC. She quietly goes about leading and teaching in the Rad Tech Program but seeks no praise or recognition for her efforts. It is important for her to know that she is a tremendous asset to the College.

Recommendation:

The administration recommends the Board approve the retirement of Dianna Brevitt as a Professor of Radiologic Technology effective July 31, 2026.

Subject: Notice of Intent to Retire

Dear Dr. Hellmich:

I am writing to announce my intention to retire from my position at Sauk Valley Community College. I would like to utilize the early retirement option. My retirement would be effective July 31, 2026. I am excited about the future, but I will deeply miss being part of this wonderful organization.

Working at Sauk has been an incredibly fulfilling experience for me, from my experiences as a student to the many years of employment under various roles. I deeply appreciate the support, collaboration, and encouragement from my colleagues and leadership throughout my time here. I am grateful for the opportunities I have had to grow both professionally and personally, as well as the friendships I have built along the way. Also, I have felt it to be a privilege to teach students and be a part of their education.

Thank you for the meaningful experiences and memories I have gained during my time at Sauk. I look forward to always being connected to Sauk and hope to teach in an adjunct role in the years ahead.

Sincerely,

A handwritten signature in cursive script that reads "Dianna Brevitt".

Dianna Brevitt MAT RT(R)(CT)
