

Sauk Valley Community College
July 27, 2026

Action Item 4.12

Topic: **Contract Approval – ISE EnterpriseSCHEDULE**

College Health: **Information Technology – The College provides secure access to resources for students, faculty, staff, and the community.**

Presented By: **Dr. Jon Mandrell and Aaron Schupbach-Roe**

Presentation:

The College utilizes Ellucian Banner as its Enterprise Resource Planning (ERP) and Student Information System (SIS). Banner serves as the College's primary administrative system, supporting student records, registration, financial aid, finance, human resources, payroll, and other essential business functions.

ISE EnterpriseSCHEDULE is an enterprise job scheduling and automation solution designed specifically for Banner. The software automates recurring Banner processes, manages job dependencies, and provides centralized monitoring of more than 1,100 Banner jobs used across the College. By automating routine processes and scheduling jobs to run at designated times, EnterpriseSCHEDULE improves efficiency, reduces manual effort, minimizes the potential for human error, and helps ensure critical administrative processes are completed consistently and reliably.

This investment will increase operational efficiency, reduce institutional risk, strengthen business continuity, improve stewardship of College resources, and allow staff to focus on higher-value work that better supports students, faculty, and staff. EnterpriseSCHEDULE also aligns with the College's long-term technology strategy by supporting Banner SaaS and future system modernization efforts.

This agreement with ISE EnterpriseSCHEDULE provides a 15-year license, 1 year of maintenance, and installation assistance/implementation.

Contracts for integrated software services are exempt from public solicited bids under the Public Community College Act (110 ILCS 805/3-27.1) and SVCC Board Policy.

Recommendation:

The administration recommends the Board approve the contract for ISE EnterpriseSCHEDULE for \$32,290.40.
