Dr. Hellmich introduced Myndi Fletcher, Director of Facilities who gave the Board an update regarding the HVAC project that started May 18th. Over the summer the College will be replacing all of its Air handler units. For the first couple of weeks there won’t be any air movement. Once they are installed, there will be air movement but not air conditioning. The project should be done by the middle of July. Administration has been talking about contingencies for the past month in preparation of the project.
