

**Sauk Valley Community College
October 20, 2025**

Action Item 4.6

Topic: **Sim2Grow Simulations Solutions Medication Administration System**

Strategic Direction: **Workforce Development – Sauk Valley Community College meets the workforce needs of the region through effective and responsive programming and services for all learners.**

Presented By: **Drs. David Hellmich and Jon Mandrell**

Presentation:

In the college's health clinical areas, the use of simulators assists students due to the limited clinical experiences available to them. Simulators mimic high stress situations and force students to utilize critical thinking skills. This academic year, the College was awarded approximately \$242,000 in state funding through the Pipeline for the Advancement of the Healthcare Workforce Program (PATH). As part of the grant's budget and outcomes, the Nursing Program uses the Sim2Grow medication administration system to mimic the medication administration systems used at clinical sites. Due to the volume of students and the need to increase access, the program would like to expand its licensing and devices with Sim2Grow, which includes the purchase of 14 iPads and 6 new licenses, totaling \$45,360.

Contracts for integrated software and equipment are exempt from publicly solicited bids under the Public Community College Act (110 ILCS 805/3-27.1) and SVCC Board Policy (305.01).

Recommendation:

The administration recommends the Board approve the purchase of the Sim2Grow Simulation Solutions licenses in the amount of \$45,360.00 to be paid from the PATH Grant funds.

sim2grow's TOTAL Med Admin Solution

Annual Licensing

Created for Nurses by Nurses!

We experienced firsthand the problem of a lack of affordable integrated tools to teach safe med pass from start to finish. So we fixed it ourselves!

Every critical element is included. Every obstacle eliminated...**all designed and programmed by us, the sim2grow co-founders.**

PROTECTING *your* INVESTMENT

Bringing sim2grow's reliable and user-friendly medication administration training system into your program adds enormous academic and clinical value.

This investment in student success is protected by our **ANNUAL** software licensing program including:

- Software use
- Ongoing customer support so you experience seamless dispensing and med admin
- Annual software training so faculty are always up-to-date
- Any new software features or enhancements so your system reflects current practice
- **New iPads every 3 years** so aging technology doesn't become a blocker to student practice.
