

(042) Associate in Applied Science

This program aligns to the AAS/Gateways ECE Level 4 credential.

The Early Childhood Education program provides the academic background and practical experience for people interested in careers in education, including infant, preschool and school-age child care in early childhood centers, family child care homes, parent education, and early childhood program supervision. Coursework focuses on theory, research and program practice pertaining to children prenatal to early school age. Students will have the opportunity to observe and assess children's behaviors and to work directly with children in a supervised setting. This program provides a comprehensive course of study, including physical, cognitive, social and emotional development of young children, curriculum development, literature and language arts, creative activities for teaching art, music, math and science, behavior guidance, health and nutrition, and one supervised practicum experience.

Credential Program Description

Students enrolled in Early Childhood programs at Sauk Valley Community College will be eligible to complete credentials through Gateways to Opportunities state professional development system for ECE levels 2, 3 and 4. Benefits of this credentialing process increase a student's employability through ACCESS Illinois and make students eligible for scholarship opportunities and wage differentials.

Work and Employment

The early childhood education program is designed to educate professionals for a diverse and challenging field. Employment opportunities for graduates of the early childhood education program are very positive, whether pursuing a career in a group day care, preschool setting, or in family care.

Criminal History Check Policy

Illinois law requires licensed early childhood programs to conduct a criminal background investigation on applicants for employment. Employment of individuals who have been convicted of committing or attempting to commit offenses that may put children in harm's way is prohibited. Laws vary according to the agency and their licensing body.

All students entering the initial observation course must first submit to a criminal background check (CBC). You will be notified by the College of the fees, date, time and location of the finger printing process. In addition, students listed on the Illinois Sex Offenders Registry, Illinois Violent Offender Against Youth Registry, and the National Sex Offenders Registry will be denied entrance into these programs.

If any of the above returns with an incident "hit", you will be notified and will need to meet with SVCC faculty/staff who will review your results and review how it might affect your ability to participate in these programs. An adverse decision may be appealed through the institutional academic appeal process.
