

INACTIVE PROGRAM

****This certificate is not currently offered.**

The Web Design certificate consists of a core of courses designed to prepare the student for entry-level positions in web site design and support. Instruction includes hands-on experience with Web browsers, search engines, web-authoring and multimedia authoring software, and introductory-level web programming.

Work and Employment

Increasingly, companies both large and small desire a Web presence, and workers are needed to design, develop and support these Web sites. Employers are increasingly interested in employees who can combine areas of technical expertise or who are adaptable and able to learn and incorporate new skills and keep pace with rapidly emerging and changing technologies.
