

The agriculture business program is a two-year program designed to prepare individuals for jobs in the field of agricultural supply, distribution, and service. Students prepare for a career in the business of agricultural production, finance, commercial sales, commodity trading, or other service provision to producers. Students will receive training in precision agriculture as well as operating and managing an agricultural business.

### **Work and Employment**

This degree will prepare students for jobs in farm management, ag lending, ag sales, and commodities trading.
